The Western Esoteric Traditions - Nicholas Goodrick-Clarke 2008-10-14

Western esotericism has now emerged as an academic study in its own right, combining spirituality with an empirical observation of the natural world while also relating the humanity to the universe through a harmonious celestial order. This introduction to the Western esoteric traditions offers a concise overview of their historical development. Nicholas Goodrick-Clarke explores these traditions, from their roots in Hermeticism, Neo-Platonism, and Gnosticism in the early Christian era up to their reverberations in today's scientific paradigms. While the study of Western esotericism is usually confined to the history of ideas, Goodrick-Clarke examines the phenomenon much more broadly. He demonstrates that, far from being a strictly intellectual movement, the spread of esotericism owes a great deal to geopolitics and globalization. In Hellenistic culture, for example, the empire of Alexander the Great, which stretched across Egypt and Western Asia to provinces in India, facilitated a mixing of Eastern and Western cultures. As the Greeks absorbed ideas from Egypt, Babylon, Assyria, and Persia, they gave rise to the first esoteric movements. From the late sixteenth to the eighteenth centuries, post-Reformation spirituality found expression in theosophy, Rosicrucianism and Freemasonry. Similarly, in the modern era, dissatisfaction with the hegemony of science in Western culture and a lack of faith in traditional Christianity led thinkers like Madame Blavatsky to look East for spiritual inspiration. Goodrick-Clarke further examines Modern esoteric thought in the light of new scientific and medical paradigms along with the analytical psychology of Carl Gustav Jung. This book traces the complete history of these movements and is the definitive account of Western esotericism.

Esoteric Astrology - Torgny Jansson 2005-12-05

If you are interested in understanding more about your true self, the purpose of life and your spiritual path, Esoteric Astrology is the book for you. You will be guided into a deeper dimension of astrology and the spiritual laws behind all life, for example the law of reincarnation and karma. There is a great difference between esoteric astrology that interprets the horoscope from the viewpoint of the soul, and traditional astrology that often is preoccupied with outer events and the desires and reactions of the outer self. An esoteric astrologer looks for the purpose of the soul, and the inner causes behind what happens to you in life. What are your talents and limitations, so that you can make use of and increase your good sides and eliminate or limit the bad habits. The book is written in a simple language, it is a beginner's guide to astrology. You will need no previous knowledge about astrology to read this book. This book is meant for anyone who is interested in spirituality and astrology. But it is also recommended for you who have studied

astrology and wish to add a spiritual dimension to the subject. This book includes many important areas, such as: human relations, how to cast a horoscope, diseases, the purpose of life, and an esoteric interpretation of the signs. The book helps you to understand more about yourself. But to this is added astrology for humanity and nations, how astrological energies are influencing and are determinative for society. From the perspective of a spiritual background, this is indeed an entirely new way of looking at our civilization.

Esoteric Psychology - The Seven Rays - Dr. Douglas M. Baker 2014-04-09

Esoteric Psychology - The Seven Rays: The knowledge of the Seven Rays provided by this book will prove of immense value to all who seek to understand human nature, and to achieve enhanced self awareness and integration of personality, in themselves and others. This masterly written and illustrated manual is an absolutely essential starting and reference work for all those who finally respond in this lifetime to their Purpose and Inner Voice! This book emphasises that all is energy and that Man is an energy unit affected from both without and within. It demonstrates that Ray Psychology is essentially practical and shows how the qualities of these energies may be understood and embraced in human behaviour and today's language. It is plain that psychology will play an ever increasing role in the development of new age consciousness. Already today millions of people, who would be regarded as laymen, practise their own psychology in everyday life. This tendency has been boosted by the general interest in astrology. A glimpse into the future will show that the new psychology will be based on many emerging astrological factors. Esoteric psychology takes into account not only hereditary and environment, but draws also upon that massive third factor which is the psychic and spiritual nature of Mankind. The effect of karma, the influence of previous lives, etc., are major contributions to the behaviour of those who seek to tread the path towards spiritual enlightenment. Esoteric Psychology is based on two major precepts. Firstly, there is a cosmic force conveying seven streams of energy into our solar system that affect the nature, behaviour and evolution of all forms within the ring-pass-not of this system. These streams are termed the Seven Rays. Secondly, spiritual qualities emerging from the immortal component of Man's structure affect his behaviour and modify the contributing factors of his hereditary equipment and the environment into which it is thrust.

The Rays and the Initiations - Alice A. Bailey 1993

The possibility of group initiation is a development of the present era. This volume emphasises the growth of the group idea, group service, group responsibility.

In Search of Being - G. I. Gurdjieff 2021-07-20

Over one hundred years ago in Russia, G. I. Gurdjieff introduced a spiritual teaching of conscious

evolution—a way of gnosis or “knowledge of being” passed on from remote antiquity. Gurdjieff’s early talks in Europe were published in the form of chronological fragments preserved by his close followers P. D. Ouspensky and Jeanne de Salzmann. Now these teachings are presented as a comprehensive whole, covering a variety of subjects including states of consciousness, methods of self-study, spiritual work in groups, laws of the cosmos, and the universal symbol known as the Enneagram. Gurdjieff respected traditional religious practices, which he regarded as falling into three general categories or “ways”: the Way of the Fakir, related to mastery of the physical body; the Way of the Monk, based on faith and feeling; and the Way of the Yogi, which focuses on development of the mind. He presented his teaching as a “Fourth Way” that integrates these three aspects into a single path of self-knowledge. The principles are laid out as a way of knowing and experiencing an awakened level of being that must be verified for oneself.

Lifeclock - Bruno Huber 2006

LifeClock is perhaps what most captures the imagination of those new to the work of Bruno and Louise Huber. The horoscope is seen as a clock for the person's lifetime, with the Age Point indicating their age as the 'time' on the clock. Those trying it for themselves invariably find significant correspondences between indications in their birth chart and psychological crises and other meaningful events in their lives. This deepens self-understanding and provides impetus and insight to their psychological and spiritual growth. The effectiveness and value of this surprisingly simple approach to astrological timing is repeatedly confirmed. Counsellors and others in the helping professions find this a powerful tool, helping them to quickly identify the psychological sources of a client's problems. We are delighted to make available this integrated edition of LifeClock, incorporating the two separate volumes originally published by Weiser in 1982-6. This is one of eight volumes by the Hubers covering astrological psychology, a powerful combination of astrology with modern psychological understanding pioneered by them and recognised as the Huber Method. LifeClock contains an appendix introducing this approach, so is easily accessible to those unfamiliar with it. Essential material for all students of astrological psychology and the Huber Method!

Soul Cycles of the Seven Rays IV - Phillip Lindsay 2019-03-21

This is the fourth volume of the series, Soul Cycles of the Seven Rays, whose essays range over a variety of zodiac sign perspectives from Aries through to Pisces, esoterically considered. Esoteric Astrology is the Science of the Seven Rays, hence the rays, signs and planets are mentioned frequently as the conditioning influences upon Earth and all the entities contained therein, whether they are individuals, groups, cities, nations or kingdoms. The Science of Cycles is also another factor that is incorporated, along with the Science of Initiation, a sub-science of Esoteric Astrology. The author always endeavours to make practical this sometimes very abstruse science, hence there are many references to current world events such as the Germanwings tragedy, the twelve spiritual festivals corresponding to the zodiac signs, the themes of glamour, maya and illusion, music and art, natural disasters; Shamballa, global transformation, the nuclear age, initiation, extreme sports, famous personalities, right human relationships, the digital revolution, environmental issues, human crises, healing, the role of fixed stars, sexuality, the solstices and equinoxes.

The Destiny of the Nations - Alice A. Bailey 1978

The Books of Alice A. Bailey, written in cooperation with a Tibetan teacher between 1919-1949, constitute a continuation of the Ageless Wisdom--a body of esoteric teaching handed down from ancient times in a form which is always suitable to each period. Intended to precede and condition the coming era, the Alice A. Bailey writings offer an unparalleled spiritual approach to such subjects as the teaching on Shamballa and the Path of spiritual evolution; the spiritual Hierarchy; the new discipleship and training in meditation as a form of service; the teaching on the seven rays and the new psychology of the soul; the teaching on esoteric astrology; and the new world religion, which emphasizes the common thread of truth linking all the major world faiths. World problems are increasing in complexity as the population of the world increases, and as nations become inter-related and interdependent. It is important for the future of mankind that we understand and cooperate with the spiritual laws and forces at work within the interwoven structure of civilisation, so that the individual part - human and national - can be rightly related to the evolving whole. solar and cosmic sources. These energies influence the nation as a whole through the mechanism of response equivalent to the Monad-soul-personality constitution of a man. Different nations are more receptive to some energies than to others; and all nations, subject to the evolution of national consciousness, have a destiny before them which is literally based on the qualities and the principles of the particular ray energy seeking expression through the national soul. In this book the ray energies affecting certain nations, world groupings and major cities are analysed in relation to meaning and purpose, and to the emergence of ideas appropriate to energy influences dominant at the end and at the beginning of an age. The world of humanity is shown as a state of becoming, guided and given opportunity by the spiritual Hierarchy - the inner government of the planet - from a stable state of Being. weaves the destinies of all peoples together into a synthesis, in which each contributes to the whole the unfoldment of individual potential. A recognition of the soul destiny of nations in the light of the teaching in this book, has a practicality today in our search for international adjustments. The ray qualities affecting the peoples of the world can be used intelligently to promote understanding and unity. We are given a glimpse in this book of the beauty of energy synthesis when all component parts work together according to their own ray combination and the glory of the One. The future will see right relationships, true communion, a sharing of all things ...and goodwill; we have also a picture of the future of humanity when all nations are united in complete understanding and the diversity of languages - symbolic of differing traditions, cultures, civilisations and points of view - will provide no barrier to right human relations. At the centre of each of these two pictures is to be found the Christ.

The Labours of Hercules - Alice A. Bailey 1983-02

It is an excellent introduction to a more esoteric understanding of astrology.

The Jewel in the Lotus - Dr. Douglas M. Baker 2014-03-02

The Jewel in the Lotus: This book is a masterpiece and with good reason can be called the flagship amongst Dr. Baker's many books. Using scientific analogies he introduces the reader to the seven fundamental postulates that form the basis of the Ancient Wisdom, that body of teachings handed down through the ages and taught by the Mystics of all Religions and Mystery Schools in today's, easy to understand words. The reader is introduced to the concept of Hylozoism, the proposition that all things, organic and inorganic are filled with life from the tiniest atom to the greatest galaxy. The author describes the nature and origin of the Seven Rays, knowledge of which leads to an understanding of Esoteric Psychology. An introduction to Esoteric Astrology is given and the basic questions of why we are here and where we are going are answered from the esoteric viewpoint. Your understanding of this vast subject will be enhanced by the inclusion of over eighty images and charts, many in colour. This book is a "must read" for every sincere student of Metaphysics, Esoteric Science, Alternative Healing and Esoteric Astrology!

Astrology and the Seven Rays - Bruno Huber 2006

Linking astrology with the seven rays enables people to recognise their own deepest qualities. According to the ageless wisdom, the seven rays are cosmic streams of energy that pervade all life on earth. Astrology

and the Seven Rays introduces the psychological application of the rays, giving insights that could not otherwise be obtained from the astrological chart. Bruno Huber discovered a new method that can be used by both specialist and layman to determine the rays in the individual horoscope. This enables you to find your own personal ray combination, and those of others. Astrology and the Seven Rays opens up a new approach to esoteric psychology and esoteric astrology, and provides insight into the process of spiritual development. Bruno and Louise Huber have taught a new dynamic direction of astrology for over thirty years, reflected in their series of eight books on astrological psychology. Their work was grounded in the esoteric teaching of Alice Bailey and in the psychosynthesis of Roberto Assagioli. They are founders of the internationally known Swiss school of astrological psychology in Zurich. The text is an edited transcript of an inspirational seminar given by the Hubers in England in 1998, supplemented with some new material. It represents the fruit of a lifelong dedication to the synthesis of spiritual, psychological and astrological understanding. A ground breaking work for the new age.

[A Treatise on the Seven Rays: Esoteric astrology](#) - Alice Bailey 1968

Soul Cycles of the Seven Rays III - 2015-04-07

This is the third volume of the series, Soul Cycles of the Seven Rays, whose essays range over a variety of zodiac sign perspectives from Aries through to Pisces, esoterically considered. Esoteric Astrology is the Science of the Seven Rays, hence the rays, signs and planets are mentioned frequently as the conditioning influences upon Earth and all the entities contained therein, whether they are individuals, groups, cities, nations or kingdoms. The Science of Cycles is also another factor that is incorporated, along with the Science of Initiation, a sub-science of Esoteric Astrology. The author always endeavours to make practical this sometimes very abstruse science, hence there are many references to current world events such as the Mayan eclipse of 2012, the Catholic Church, homelessness, poverty, financial crisis, theft, narcissism, sugar, gun control and sexuality. Some of the more esoteric subjects include: Cymatics, Shamballa, planets and fixed stars, the seven rays, initiation, speech and silence, mantras, breath, the etheric body, the asteroid goddesses and The Egyptian Book of the Dead. There are brief and more lengthy profiles of famous (or infamous!) individuals and events such as: Nelson Mandela, James Holmes, Kieron Williamson, Steven Spielberg, Don Quixote, Pink Floyd, Anders Breivik, Rumi, Nicholas Roerich, Patrick White and the Sandy Hook and Aurora shootings. Although nations are mentioned mostly in the author's books, The Destiny of the Races and Nations (Vols I & II), some commentaries included here are on: USA, Japan, Turkey, Russia, Germany, Brazil, Norway, Cuzco and London.

[Esoteric Psychology II](#) - Alice A. Bailey 1979-06-12

The second volume of Esoteric Psychology deals exhaustively with the ray qualities controlling the life, consciousness and appearance of a human being on the physical plane. Every man in his totality is subject to the laws of evolution by which he proceeds from the One to the many and back to the One, enriched by the experience of life in form and capable of contributing the results of that experience to the larger life which pervades him. Because the process of evolution is one of expansion in consciousness towards the centre of the One Life, an individual becomes increasingly identified with larger and larger areas of group consciousness; with the family and community group; with the nation; with the world and with the one humanity; with the soul and the ashramic group; and ultimately with those centres of consciousness we identify as Hierarchy, the planetary heart inspiring the Plan; and with Shamballa, the planetary head centre of purpose, will and intention. This is a long process of discipleship growth and of service response to the requirements of the Plan and the needs of humanity. to the disciple in training for world service, learning to take his place within that subjectively united and organised group of disciples discussed in this volume as the new group of world servers. Group consciousness is a major goal for every aspirant to discipleship. The first part of the book dealing with the Egoic Ray, includes sections on (1) The growth of soul influence (2) The seven laws of soul or group life (3) The five groups of souls and (4) Rules for inducing soul control. While the second part of The Ray of the Personality, contains detailed teaching on (1) The appropriation of the bodies (2) The coordination of the personality (3) Some problems of psychology and (4) Diseases and problems of disciples and mystics. The final part of this volume on Humanity Today anchors these pervasive thoughts and energies within the world arena. The world situation is viewed from the esoteric and

Hierarchical angle and in relation to the requirements of the dawning new age of Aquarius. world in order to create conditions in which peace can prosper and the Christ can reappear. Supreme effort was made by the Hierarchy to avert the 1939 outbreak of war, and to this end stimulating and evocative energies were literally forced into human consciousness through the agency of the new group of world servers. The requirements of the Plan for humanity were held up as the vision, without which the people perish. Choosing to learn the hard way, humanity is only now opening the eye of vision as the result of drastic experience. Disciples and world servers, therefore, face a superlative opportunity today to equip themselves for service to the Plan, to humanity and to Hierarchy, by applying the psychology of the soul to every aspect of their life environment. The books of Alice A. Bailey, written in cooperation with a Tibetan teacher between 1919-1949, constitute a continuation of the Ageless Wisdom body of esoteric teaching handed down from ancient times in a form which is always suitable to each period. Intended to precede and condition the coming era, the Alice A. the teaching on Shamballa and the Path of spiritual evolution; the spiritual Hierarchy; the new discipleship and training in meditation as a form of service; the teaching on the seven rays and the new psychology of the soul; the teaching on esoteric astrology; and the new world religion, which emphasizes the common thread of truth linking all the major world faiths.

The Seventh Ray - Alice A. Bailey 1995-06

To aid men and women endeavouring to prepare themselves for group service during this transitional era, the Tibetan Master, Djwhal Khul, suggested that a compilation be made of all that he had written with Alice Bailey on the Seventh Ray of Ceremonial Order. The Seven Rays of Life - Alice A. Bailey 1995

The teaching on the seven rays can enable all true servers to work with greater skill and effectiveness in their chosen field of activity. As Alice Bailey wrote, a study of the rays will mean that "...we shall have a practical method of analysis whereby we can arrive at a right understanding of ourselves as ensouling entities, and at a wiser comprehension of our fellow men We can then deal more intelligently with ourselves, with our children and with our friends and associates. We shall find ourselves able to co-operate more wisely with the Plan as it is seeking expression at any particular time".

The Seven Rays - Douglas Baker 1977-10-01

In these works, Samael Aun Weor sheds the light of wisdom upon a science that is as ancient as the universe. In the third book, Samael Aun Weor gives the secrets of Theurgy, White Magic, which is the science of influencing nature's phenomena in the internal and external worlds under the guidance of Divine Will and Intelligence. The author writes: "The planets move, evolve and progress within the consciousness. The sidereal temples are within the consciousness. The human being is a zodiac And The zodiacal belt is within the consciousness. "The ten Sephiroth of Kabbalah are the solar system. The seven inferior Sephiroth are the seven planets, And The crown formed by Kether, Chokmah and Binah, are the triune spiritual sun. "These ten Sephiroth are within us and we must learn to manipulate them. We must learn how to transfer ourselves To The different stars in order to know the horoscopes of people. "Conversing with the sidereal Gods, we will know our horoscope without the need For The much-boasted about arithmetic astrology. "Arithmetic astrology was For The "Black Age." the age of "Astro-Theurgy" has now arrived!"

The True Colours of Man - Helena Petrovna Blavatsky, William Quan Judge 2019-03-10

One hundred and forty years have passed like a dream, with much heart-sore and soaring hope, since the Theosophical Society was founded on 17 November 1875 in New York. We have decided to mark this auspicious date by releasing a series of hitherto private study notes and analyses of H.P. Blavatsky's Esoteric Section (E.S.) Instructions. The True Colours of Man, amplifies and clarifies E.S. Instructions I and II, aided by 31 original drawings, diagrams, and tables. The seven prismatic colours are direct emanations from the Seven Hierarchies of Compassion, each of which is the creator and source of the corresponding human principle. Each prismatic colour is the "Father of the Sound" which corresponds to it; Sound being the Word, or Logos, of its "Father-Thought." Thus the Creative Force produces colours, sounds, and numbers, in the shape of rates of vibration, which compound and dissociate atoms and molecules. The Seven Primordial Lights, manifested from Light Unmanifested, are Divine Principles. The Principles of Man are bright reflections of Divine Principles, a Great Sacrifice; they are the seven-stringed lyre of Apollo. Colours and sounds are all spiritual numerals. Colour is Spirit (Atman), sound is Voice (Buddhi), proportion of numbers is Word (Higher Manas). Colours and sounds are associated with the Hierarchy of Compassion, the Manifested Logos. Colours-sounds-numbers proceed from 1 to 7 and not from 7 to 1, as erroneously shown in the spectrum of the prismatic colours. As the Seven Colours of the solar spectrum correspond to the Seven Rays, or Hierarchies, so each Ray has its seven divisions corresponding to the same series of colours. Esoterically, the right eye corresponds with Soul Wisdom or true knowledge; the left, with mere head learning. The Spiritual Man corresponds directly with the "coloured circles" of the Divine Prism which emanate from the One Infinite White Circle; the physical man emanates from the Sephiroth of the Kabbalah, the "voices" or "sounds" of Eastern Philosophy. "Voices," however, are lower than colours. The lower Sephiroth are the seven physical planets. Our triple physical Sun, personified by the Upper Triad, is the Sephiroth Crown. The real Sephiroth are the Four Maharajas of The Secret Doctrine: Sun, Moon, Mercury, and Venus. The ancients considered as the most holy those organs which we now associate with feelings of shame and secrecy. The lower organs have been evolved to perform six functions on six distinct planes of action, besides a seventh, the lowest and purely terrestrial function on the physical plane. The physical body is not a "principle" and has no place in the sevenfold division. It is furnished by Mother Earth. Numbers and harmonious proportions guide the first differentiations of the Homogeneous Substance into heterogeneous elements. Perfect knowledge of the correspondences between colours, sounds, and numbers is the first requisite for students of Occultism. The Eye of Dangma will awaken only when the mouth is suppressed. The Auric Egg is the monadic envelope and amnion of the physical man. Initiates, saints, and pure men can help others as well as themselves in their hour of need, with the aid of the God within, who has been enabled to act on the outward plane. Advanced students are invited to pronounce the Word before going to sleep and first thing upon awakening. Beginners, who cannot help going into crowds, are advised to wear either a ring containing some jewel of the colour of the presiding planet for the particular day of the week, or else of the metal sacred to it. A word of advice concerning Instructions I and II: students should strive to spiritualise these Instructions and avoid materialising them.

Introduction to the Seven Rays - Kurt Abraham 1986

The Rays and the Initiations - Alice A. Bailey 1970-06-01

The final volume in this treatise on the seven rays contains the fundamental spiritual structure on which the next presentation of the Ageless Wisdom teaching will build. The book is in two parts; the first part enumerates and details the Fourteen Rules for Group Initiation. These are the rules for disciples and initiates, paralleling on a higher turn of the spiral, the rules for applicants contained in the book *Initiation, Human and Solar*. The second part of this volume is concerned with the Rays and the Initiations, those nine major expansions of consciousness through which the initiate becomes progressively liberated from the various forms of our planetary life, ultimately proceeding upon his chosen Path of development and service within the universe. One of the outstanding principles unfolded through the pages of this book is that of the growth of the group idea - group service, group responsibility and group initiation. The possibility of group initiation seems to be one of the new emerging developments of the Aquarian era; therefore, the profound value to the disciple of the Fourteen Rules for Group Initiation. consciousness expands with the acceptance of occult obedience, and the meeting of all requirements on the Path of Initiation in a group penetrating together towards the centre of an ashram, and into the heart and will of the presiding Master. Because the way to the innermost sanctum is the way of outer service, and because initiation is the effect of an increasing capacity to intuit the Plan, to register ashramic purpose and to act accordingly, these rules are in reality great Formulas of Approach ...approach to a specific section of the Path and not approach to the Initiator. I would have you reflect on this distinction. The initiate is becoming increasingly aware of the dynamics of the Science of the Service of the Plan. This distinctive realisation can only come when his fused and blended personality and soul expression of will has disappeared in the blazing light of the Divine Purpose. is invaluable in expanding the mind to contemplate the larger patterns and processes in which the individual function may be viewed in perspective. In dealing with such abstruse matters, the author again demonstrates a marvelous capacity to relate the deepest and most profound aspects of the Master's teaching to the life and the consciousness of the aspirant in the world today. Since there is no separation in life, and since the aphorism As above so below applies in every particular throughout the cosmos, and recognisably within the solar and the planetary lives, there is great value in the clear delineation of continuity. Revelation concerns Oneness and nothing else. The practical nature of this truth is only recognised when the disciple attempts to do two things: To realise it individually and to bring the nature of planetary unity and of non-separateness to the minds and into the lives of men everywhere. Esoteric Astrology - Alice A. Bailey 1975-12-01

The science of esoteric astrology is said to be the basic occult science for the future. It will come into its own as the esoteric or soul factors begin to supersede the exoteric focus of the vast majority of professional and amateur astrologers today. This is the science which deals with those conditioning and governing energies and forces which play through and upon the whole field of space and all that is found within that field. The Ancient Wisdom teaches that Space is an entity. It is with the life of this entity and with the forces and energies, the impulses and the rhythms, the cycles and the times and seasons, that esoteric astrology deals. Esoteric astrology can be applied by the trained worker in a variety of ways; in medicine, psychology, science, education; to an evaluation of human problems, of the destiny of nations, of a correct interpretation of world affairs, and so on. It is necessary, however, that at this stage the application of esoteric astrology to human life should be recognised as experimental and tentative, so that each individual worker can adjust his thinking and his methods according to his own wrought-out experience. to work depend entirely on a consciousness evolving out of control by the personality into the life of the soul, out of separateness and self-centredness into a realisation of unity, and absorption into a centre of group consciousness. Astrology is described in this book as the science of relationships - the relationship existing

between all living organisms within the universe. Not only the qualities of the ray energies affect these centres of consciousness, but also the quality and energy of the ruling planets and the zodiacal signs. Seen from the exoteric outside, astrology is a vast and most involved and complex subject. From the esoteric inside, while it is still vast, all-inclusive and complex, it is also possible to perceive the thread which unites and the pattern which prevails throughout the whole system. A basic simplicity in the grand design emerges, therefore, which can serve to interpret the whole. study: (1) The Zodiac and the Rays (2) The Nature of Esoteric Astrology (3) The Science of Triangles (4) The Sacred and Non-Sacred Planets (5) Three Major Constellations (6) The Three Crosses (7) The Rays, Constellations and Planets. In addition there is an appendix which summarises and tabulates many of the factors of fundamental importance to the study of esoteric astrology. This is a book for the true occult student. It may appear to be too highly specialised for some; but every esoteric worker finds eventually that his work requires an understanding of the basic astrological factors which affect all relationships and all forms of life within the ethers of space, so that he may learn how to cooperate intelligently in the evolution of the whole by the right adjustment of the part within that whole; until eventually the many are absorbed into the One. The books of Alice A. Bailey, written in cooperation with a Tibetan teacher between 1919?1949, constitute a continuation of the Ageless WisdomCa body of esoteric teaching handed down from ancient times in a form which is always suitable to each period. writings offer an unparalleled spiritual approach to such subjects as the teaching on Shamballa and the Path of spiritual evolution; the spiritual Hierarchy; the new discipleship and training in meditation as a form of service; the teaching on the seven rays and the new psychology of the soul; the teaching on esoteric astrology; and the new world religion, which emphasizes the common thread of truth linking all the major world faiths.

Transitional Astrology - Suzanne Rough 2014-06-09

Transitional Astrology is a book about context. That context is the Universe, in which we take our place and find our purpose. The knowledge, the Ageless Wisdom, is as old as Man; the structures are those of Esoteric Astrology, written by Master D.K. through Alice Bailey. This work aims to work shows how these esoteric perspectives can be made to enhance the role of orthodox astrology as a spiritual tool, and encourages the idea that when we can see our place in the larger scheme, we will have a better understanding of our potential, collectively and individually, and of how to use life and time wisely. Transitional Astrology is recommended to astrology practitioners, and to students with a working knowledge of horoscopy.

A Treatise on the Seven Rays - Alice a. Bailey 2013-07

2013 Reprint of 1950 Third Edition. Full facsimile of the original edition, not reproduced with Optical Recognition Software. Volume One Only. The books of Alice A. Bailey, written in cooperation with a Tibetan teacher between 1919 and 1949, constitute a continuation of the Ageless Wisdom--a body of esoteric teaching handed down from ancient times in a form which is always suitable to each period. Intended to precede and condition the coming era, the Alice A. Bailey writings offer an unparalleled spiritual approach to such subjects as the teaching on Shamballa and the Path of spiritual evolution; the spiritual Hierarchy; the new discipleship and training in meditation as a form of service; the teaching on the seven rays and the new psychology of the soul; the teaching on esoteric astrology; and the new world religion, which emphasizes the common thread of truth linking all the major world faiths. Five volumes have been written under the overall title of "A Treatise on the Seven Rays." This sequence of books is based on the fact, the nature and the quality of the seven basic streams of energy pervading our solar system, our planet and all that lives and moves within its orbit. Of the specialized subjects presented in these books, two volumes are concerned with esoteric psychology - the first in relation to basic energy patterns and structures; the second particularly applied to the soul and the personality of man and to the working out of the Plan for humanity. Psychology is defined in Webster's Dictionary as "the science of mind," at one time considered a branch of metaphysics. Today we are more inclined to include all the conditioning subjective factors as psychological in nature - mental and emotional impulses and soul contact, to whatever degree it exists. These subjective influences constitute the whole psychological background to a man's attitudes and behaviour, and create the faculty of spiritual response. The "psyche" is, after all, the human soul, the centre of consciousness. Esoteric psychology begins with a consideration of the human being as a soul, manifesting in the form of a personality, consisting of mental, emotional and etheric/physical substance,

and more or less in contact and control, depending on the stage of evolution in the personality consciousness. From the point of view of esoteric psychology, evolution is the evolution of consciousness, by which the imbedded fragment of the soul within the personality progressively identifies its spiritual source and becomes at-one with it. The seven differentiated streams of ray energy play a significant role in this evolutionary process. A blend of five energies in a human being determine his goals, his problems, his available qualities and energy resources, and the correct method by which - according to his dominant ray influence - he may unfold his consciousness and make spiritual progress. In this volume of Esoteric Psychology many of these distinctive ray qualities and methods are given as quotations, or interpretations, of "The Old Commentary" put into poetic and symbolic words. The seven rays are shown as the Seven Creative Builders, each one imbued with purpose and power, functioning together as a synthesis in occult obedience to the purposes of our Solar Logos. Such a detailed and comprehensive study of the ray energies influencing our planetary life and all kingdoms in nature is of inestimable value to the aspirant consciously preparing himself to become of planetary service as he learns to serve and to unite with his fellowmen.

A Treatise on the Seven Rays: Esoteric astrology - Alice Bailey 1936

The Astrological Houses - Bruno Huber 1984-01-01

Treatise on Cosmic Fire - Alice A. Bailey 1973

This volume deals with the underlying structure of occult teaching for the present era and with those vast cosmic processes reproduced through all areas of life from universe to atom. The book gives an exposition of Solar Fire, the Fire of Mind, since this is the dominant energy to be understood and controlled during this second solar system.

The Message Of Stars - Max Heindel 2020-12-06

It is a matter of common knowledge among mystics that the evolutionary career of mankind is indissolubly bound up with the divine hierarchies who rule the planets and the signs of the Zodiac, and that the passage

of the Sun and the planets through the twelve signs of the Zodiac marks man's progress in time and in space. Therefore, it is not to be wondered at, that in the course of their investigations into the spiritual development of mankind, the writers have also encountered much that deals with the Zodiac, which is the boundary of our evolutionary sphere at the present time. So much has been perceived in the memory of nature that sheds light upon obscure passages of the Bible, that notes have been made from time to time of different points, but how to collect and collate these dissociated writings into a united whole has been a great problem for a long time. Even now, the writers know and feel that what they are bringing forth is only a very, very weak attempt to set before the students that great body of facts which have come to them through the memory of nature. They feel, however, that this will give a 3 4 THE MESSAGE OF THE STARS new and more profound meaning to the old symbols, and that by passing on what has been found they put themselves in line to receive more light. Concerning the future evolution of planets, The Rosicrucian Cosmo-Conception teaches, on page 256, that "when the beings upon the planet have evolved to a sufficient degree, the planet becomes a Sun, the fixed center of the Solar System. When the beings there have evolved to a still greater degree, and consequently it has reached its maximum of brilliancy, it breaks up into a Zodiac and becomes, so to speak, the womb of a new Solar System. Thus the Great hosts of Divine beings who, until then, were confined upon that Sun gain freedom of action upon a great number of stars whence they can affect, in different ways, the system which grows up within their sphere of influence. The planets or man-bearing worlds within the Zodiac are constantly being worked upon by these forces but in various ways according to the stage they have reached in evolution. Our Sun could not have become a sun until it set out from itself all the beings who were not sufficiently evolved to endure the high rate of vibration and the great luminosity of the beings who were qualified for that evolution. All the beings upon the different planets would have been consumed had they remained in the Sun. This visible Sun, however, though it is a place of evolution for beings vastly above man, is not by any means the Father of the other planets, as EVOLUTION AS SHOWN IN THE ZODIAC 5 material science supposes. On the contrary, it is itself an emanation from the central Sun, which is the invisible source of all that IS in our solar system."
