I See Satan Fall Like Lightning - René Girard 2001-01-01

Rene Girard holds up the gospels as mirrors that reveal our broken humanity, and shows that they also reflect a new reality that can make us whole. Like Simone Weil, Girard looks at the Bible as a map of human behavior, and sees Jesus Christ as the turning point leading to new life.

The title echoes Jesus' words: "I saw Satan falling like lightning from heaven". Girard persuades us that even as our world grows increasingly violent the power of the Christ-event is so great that the evils of scapegoating and sacrifice are being defeated even now. A new community, God's nonviolent kingdom, is being realized -- even now.

The Red Coat - Dolley Carlson 2018-10-23

Think Downton Abbey, set in the heart of Boston Irish domestic worker Norah King's decision to ask her wealthy employer, Caroline Parker, for an elegant red coat that the Beacon Hill matriarch has marked for donation ignites a series of events that neither woman could have fathomed. The unlikely exchange will impact their respective daughters and families for generations to come, from the coat's original owner, marriage-minded collegian Cordelia Parker, to the determined and spirited King sisters of South Boston, Rosemary, Kay, and Rita. As all of these young women experience the realities of life - love and loss, conflict and joy, class prejudices and unexpected prospects - the red coat reveals the distinction between cultures, generations, and landscapes in Boston during the 1940s and 50s, a time of change, challenge, and opportunity. Meet the proud, working-class Irish and staid, upper-class Brahmins through the contrasting lives of these two families and their friends and neighbors. See how the Parkers and the Kings each overcome sudden tragedy with resolve and triumph. And witness the profound impact of a mother's heart on her children's souls. Carlson brings us front and center with her knowing weave of Celtic passion - both tragic and joyful - words of wisdom, romance, humor, and historical events. Dive into Boston feet first! The Red Coat is a rich novel that chronicles the legacy of Boston from both sides of the city, Southie and the Hill.

Churchill's Secret Messenger - Alan Hlad 2021-04

A riveting story of World War II and the courage of one young woman as she is drafted into Churchill's overseas spy network, aiding the French Resistance behind enemy lines and working to liberate Nazi-occupied Paris... London, 1941: In a cramped bunker in Winston Churchill's Cabinet War Rooms, underneath Westminster's Treasury building, civilian women huddle at desks, typing up confidential documents and reports. Since her parents were killed in a bombing raid, Rose Teasdale has spent more hours than usual in Room 60, working double shifts, growing accustomed to the burnt scent of the Prime Minister's cigars permeating the stale air. Winning the war is the only thing that matters, and she will gladly do her part. And when Rose's fluency in French comes to the attention of Churchill himself, it brings a rare yet dangerous opportunity. Rose is recruited for the Special Operations Executive, a secret British organization that conducts espionage in Nazi-occupied Europe. After weeks of grueling training, Rose parachutes into France with a new codename: Dragonfly. Posing as a cosmetics saleswoman in Paris, she ferries messages to and from the Resistance, knowing that the slightest misstep means capture or death. Soon Rose is assigned to a new mission with Lazare Aron, a French Resistance fighter who has watched his beloved Paris become a shell of itself, with desolate streets and buildings draped in Swastikas. Since his parents were sent to

a German work camp, Lazare has dedicated himself to the cause with the same fervor as Rose. Yet Rose's very loyalty brings risks as she undertakes a high-stakes prison raid, and discovers how much she may have to sacrifice to justify Churchill's faith in her . . . "A rousing historical novel." - The Akron Beacon Journal, Best Books of the Year for Churchill's Secret Messenger

Don't Tell the Nazis - Marsha Forchuk Skrypuch 2019-12-03

Marsha Forchuk Skrypuch (author of Making Bombs for Hitler) crafts a story of ultimate compassion and sacrifice based on true events during WWII. The year is 1941. Krystia lives in a small Ukrainian village under the cruel -- sometimes violent -- occupation of the Soviets. So when the Nazis march into town to liberate them, many of Krystia's neighbors welcome the troops with celebrations, hoping for a better life. But conditions don't improve as expected. Krystia's friend Dolik and the other Jewish people in town warn that their new occupiers may only bring darker days. The worst begins to happen when the Nazis blame the Jews for murders they didn't commit. As the Nazis force Jews into a ghetto, Krystia does what she can to help Dolik and his family. But what they really need is a place to hide. Faced with unimaginable tyranny and cruelty, will Krystia risk everything to protect her friends and neighbors?

[Parenting Matters](#) - National Academies of Sciences, Engineering, and Medicine 2016-11-21

Decades of research have demonstrated that the parent-child dyad and the environment of the family -- which includes all primary caregivers -- are at the foundation of children's well-being and healthy development. From birth, children are learning and rely on parents and the other caregivers in their lives to protect and care for them. The impact of parents may never be greater than during the earliest years of life, when a child's brain is rapidly developing and when nearly all of her or his experiences are created and shaped by parents and the family environment. Parents help children build and refine their knowledge and skills, charting a trajectory for their health and well-being during childhood and beyond. The experience of parenting also impacts parents themselves. For instance, parenting can enrich and give focus to parents' lives; generate stress or calm; and create any number of emotions, including feelings of happiness, sadness, fulfillment, and anger.

Parenting of young children today takes place in the context of significant ongoing developments. These include: a rapidly growing body of science on early childhood, increases in funding for programs and services for families, changing demographics of the U.S. population, and greater diversity of family structure. Additionally, parenting is increasingly being shaped by technology and increased access to information about parenting. *Parenting Matters* identifies parenting knowledge, attitudes, and practices associated with positive developmental outcomes in children ages 0-8; universal/preventive and targeted strategies used in a variety of settings that have been effective with parents of young children and that support the identified knowledge, attitudes, and practices; and barriers to and facilitators for parents' use of practices that lead to healthy child outcomes as well as their participation in effective programs and services. This report makes recommendations directed at an array of stakeholders, for promoting the wide-scale adoption of effective programs and services for parents and on areas that warrant further research to inform policy and practice. It is meant to serve as a roadmap for the future of parenting policy, research,

and practice in the United States.

He is revered everywhere as a vital force in the fight for human rights and racial equality. *LONG WALK TO FREEDOM* is his moving and exhilarating autobiography, destined to take its place among the finest memoirs of history's greatest figures. Christianity and Public Culture in Africa - Harri Englund 2011-08-15

Christianity and Public Culture in Africa takes readers beyond familiar images of religious politicians and populations steeped in spirituality. It shows how critical reason and Christian convictions have combined in surprising ways as African Christians confront issues such as national constitutions, gender relations, and the continuing struggle with HIV/AIDS. The wide-ranging essays included here explore rural Africa and the continent's major cities, colonial and missionary legacies, and mass media images in the twenty-first century. They also reveal the diversity of Pentecostalism in Africa and highlight the region's remarkable denominational diversity. Scholars and students alike will find these essays timely and impressive. The contributors demonstrate how the public significance of Christianity varies across time and place. They explore rural Africa and the continent's major cities, and colonial and missionary situations, as well as mass-mediated ideas and images in the twenty-first century. They also reveal the plurality of Pentecostalism in Africa and keep in view the continent's continuing denominational diversity. Students and scholars will find these topical studies to be impressive in scope. Contributors: Barbara M. Cooper, Harri Englund, Marja Hinfelaar, Nicholas Kamau-Goro, Birgit Meyer, Michael Perry Kweku Okyerefo, Damaris Parsitau, Ruth Prince, James A. Pritchett, Ilana van Wyk

Shirley, Goodness & Mercy - Chris Van Wyk 2006

Sacred Economics - Charles Eisenstein 2011-07-12

Sacred Economics traces the history of money from ancient gift economies to modern capitalism, revealing how the money system has contributed to alienation, competition, and scarcity, destroyed community, and necessitated endless growth. Today, these trends have reached their extreme—but in the wake of their collapse, we may find great opportunity to transition to a more connected, ecological, and sustainable way of being. This book is about how the money system will have to change—and is already changing—to embody this transition. A broadly integrated synthesis of theory, policy, and practice, *Sacred Economics* explores avant-garde concepts of the New Economics, including negative-interest currencies, local currencies, resource-based economics, gift economies, and the restoration of the commons. Author Charles Eisenstein also considers the personal dimensions of this transition, speaking to those concerned with "right livelihood" and how to live according to their ideals in a world seemingly ruled by money. Tapping into a rich lineage of conventional and unconventional economic thought, *Sacred Economics* presents a vision that is original yet commonsense, radical yet gentle, and increasingly relevant as the crises of our civilization deepen. *Sacred Economics* official website: <http://sacred-economics.com/>

The Road to Democracy in South Africa - South African Democracy Education Trust 2004

South African Foreign Policy Review: Volume 1 - Chris Landsberg 2012-12-27

The richness of public and academic discourses on the past, present and future direction of South Africa's role in Africa and the world suggests that as a sub-discipline of politics, South African foreign policy is ready for a systematic and regular appraisal in the form of a series of publications that the Institute for Global Dialogue will call *South African Foreign Policy Review*. This is also because constant changes in international and domestic circumstances impinge on the management and analysis of South Africa's foreign policy. This, the first review provides an important opportunity to build on existing foreign policy works in order to take stock of the road already travelled in the past decade or so. This is crucial in laying some basis for anticipating the country's future role, and considering the opportunities and challenges, which future volumes of the review will consider. This volume provides a wide-ranging appraisal of the relationship between stated foreign policy goals and actual outputs and outcomes, an assessment of how foreign policy has actually been operationalized and implemented. To this end, common themes in South African foreign policy provide the framework for the first review. These include foreign policy decision-making; soft power dynamics in the foreign policy's strategic calculus; diplomatic tools used economic diplomacy, peace diplomacy and paradiplomacy; South Africa's relations with key states in Africa, in the global south and in the global north; South Africa's approach to Africa multilateral, global multilateralism/governance. The review hopes to stimulate further discussion and thinking on the challenges confronted, and the future shape and direction of South Africa's foreign policy.

My Real Name Is Hanna - Tara Lynn Masih 2018-09-15

Hanna Slivka is on the cusp of fourteen when Hitler's army crosses the border into Soviet-occupied Ukraine. Soon, the Gestapo closes in, determined to make the shtetle she lives in "free of Jews." Until the German occupation, Hanna spent her time exploring Kwasova with her younger siblings, admiring the drawings of the handsome Leon Stadnick, and helping her neighbor dye decorative pysanky eggs. But now she, Leon, and their families are forced to flee and hide in the forest outside their shtetle—and then in the dark caves beneath the rolling meadows, rumored to harbor evil spirits. Underground, they battle sickness and starvation, while the hunt continues above. When Hanna's father disappears, suddenly it's up to Hanna to find him—and to find a way to keep the rest of her family, and friends, alive. Sparse, resonant, and lyrical, weaving in tales of Jewish and Ukrainian folklore, *My Real Name Is Hanna* celebrates the sustaining bonds of family, the beauty of a helping hand, and the tenacity of the human spirit.

"Rivonia's Children is the harrowing and inspiring account of a handful of white Jewish activists who risked their lives to combat apartheid when South Africa plunged into an era of darkness in the 1960s from which it has only recently emerged. This is the story of Hilda and Rusty Bernstein, longtime Communists so committed to the cause that even the threat of life imprisonment did not stop them; of Ruth First, a fiery activist held for months without charge; and of AnnMarie Wolpe, an innocent bystander sucked into the maelstrom, who had to decide whether or not to risk her own freedom and the life of her sick infant by helping her activist husband escape from prison" -- Dust jacket.

The Relative Clause in Biblical Hebrew - Robert D. Holmstedt 2016

This book is the result of 15 years of research on the ancient Hebrew relative clause as well as the effective application of modern linguistic approaches to an ancient language corpus. Though the ostensible topic is the relative clause, including a full discussion of the various relative words used to introduce Hebrew relative clauses and a detailed presentation of the relevant comparative Semitic data, this work also carefully navigates the challenges of analyzing a "dead" language and offers a methodological road map for the analysis of any feature of Biblical Hebrew grammar. With the appendixes of relative clause data, including the author's English translations, the work aims at comprehensiveness, exhaustiveness, and full transparency in data, method, and theory.

Children of the Great Recession - Irwin Garfinkel 2016-08-21

Many working families continue to struggle in the aftermath of the Great Recession, the deepest and longest economic downturn since the Great Depression. In *Children of the Great Recession*, a group of leading scholars draw from a unique study of nearly 5,000 economically and ethnically diverse families in twenty cities to analyze the effects of the Great Recession on parents and young children. By exploring the

discrepancies in outcomes between these families—particularly between those headed by parents with college degrees and those without—this timely book shows how the most disadvantaged families have continued to suffer as a result of the Great Recession. Several contributors examine the recession’s impact on the economic well-being of families, including changes to income, poverty levels, and economic insecurity. Irwin Garfinkel and Natasha Pilkauskas find that in cities with high unemployment rates during the recession, incomes for families with a college-educated mother fell by only about 5 percent, whereas families without college degrees experienced income losses three to four times greater. Garfinkel and Pilkauskas also show that the number of non-college-educated families enrolled in federal safety net programs—including Medicaid, the Earned Income Tax Credit, and the Supplemental Nutrition Assistance Program (or food stamps)—grew rapidly in response to the Great Recession. Other researchers examine how parents’ physical and emotional health, relationship stability, and parenting behavior changed over the course of the recession. Janet Currie and Valentina Duque find that while mothers and fathers across all education groups experienced more health problems as a result of the downturn, health disparities by education widened. Daniel Schneider, Sara McLanahan and Kristin Harknett find decreases in marriage and cohabitation rates among less-educated families, and Ronald Mincy and Elia de la Cruz-Toledo show that as unemployment rates increased, nonresident fathers’ child support payments decreased. William Schneider, Jeanne Brooks-Gunn, and Jane Waldfogel show that fluctuations in unemployment rates negatively affected parenting quality and child well-being, particularly for families where the mother did not have a four-year college degree. Although the recession affected most Americans, *Children of the Great Recession* reveals how vulnerable parents and children paid a higher price. The research in this volume suggests that policies that boost college access and reinforce the safety net could help protect disadvantaged families in times of economic crisis.
