Jue 477 - Martin Port 2020-09

Revealed to the world in 1948, the Land-Rover not only revived the Rover Company's fortunes in an austerity-riddled post-war period, but galvanized its future, thanks to the model's almost immediate success. With the manufacture of an initial 48 'pre-production' examples coming to a close, the first official production models were assembled - starting with chassis 860001. As original factory records prove, this pivotal vehicle was destined for His Royal Highness King George VI, but the decision was made to postpone the presentation and instead, 'number one' was retained by the factory until 1950, when it was registered JUE 477 before leaving Rover Company ownership. After decades left out in the cold and exposed to the elements, 860001 had certainly seen better days, but thanks to the determination of Sir Jim Ratcliffe, founder and Chairman of INEOS, the future of JUE 477 was secured in 2017. Over the next two years, a dedicated team of experts, led by chief restorer, Julian Shoolheifer set about restoring the vehicle while retaining as much of its original DNA as was physically, and safely, possible and making sure that this remarkable vehicle's history and past life was still worn with pride.

Mostyn Thomas and the Big Rave - Richard Williams 2020-07-21

When Mostyn, an ageing Pembrokeshire farmer on the brink of bankruptcy, runs into young Jethro, his fortunes appear to take a positive turn. The pair secretly mobilise the locals of the village pub to help put on the greatest money-spinning event in the history of Little Emlyn: Lewistock. But things do not go to plan. Moneylenders, drug dealers, the county council and the bank all set a collision course with Mostyn and Jethro. As the clock ticks down to the August Bank Holiday event and the young revellers begin to pour in from all corners of the county, the tension heats up. It's not clear who exactly will get out alive. Mostyn Thomas and the Big Rave pits a struggling Welsh farming community steeped in centuries of religion and tradition against the unstoppable youth movement of early 1990s rave culture with often poignant and riotous consequences.

Death of a Green-Eyed Monster - M.C. Beaton 2022-03-10

No one in Lochdubh expects Dorothy to stay for long... She is, after all, entirely unsuitable. She's an uptown girl, used to a fancy lifestyle in the big city of Glasgow. She'll never fit in. And how is that work-shy rogue Hamish Macbeth supposed to get anything done when his new assistant is such a distraction? The village needs a police sergeant who can get on with his job, not one who's constantly swooning over his pretty young constable. Yet PC Dorothy McIver quickly shows how determined she is to win over the locals, and she certainly seems to bring out the best in Macbeth. Then comes a brutal murder and the pair find themselves plunged into a tangled web of conspiracy that acquires a sinister strand when the chilling shadow of Glasgow's underworld creeps to the Highlands and the peaceful village of Lochdubh. Through it all, the bond between Hamish and Dorothy grows ever stronger. Has Hamish Macbeth finally found the love of his life - and can he track down the murderer

before any hope he has for a blissful future is destroyed? 'This Hamish Macbeth novel maintains Beaton's distinctive voice and includes the usual village eccentrics, loads of Scottish lore, and the light humor that Beaton fans have loved through the years. . . A Book of Golden Deeds - Charlotte Mary Yonge 1866

An Unreasonable Woman - Shirley Deane 2010-11

In 1956, Shirley Deane, a young professional musician, turned her back on a recording contract and TV appearances to work her way around the world. She traveled to 67 countries, became the first woman to drive a Land Rover from England to Kathmandu, was kidnapped and questioned by Turkish police, offered a job by the CIA, was cured of asthma by an indigenous doctor in Kashmir, managed a clinic in a Tibetan refugee camp in Nepal, and stood against death threats to write and publish the first ever Who's Who of Black South Africans. And that's only part of her amazing story. Without the 24 pages of photographs, newspaper clippings, and other memorabilia, you might forget you are reading a memoir.

Freedomland - Richard Price 2010-05-12

In 1998, Richard Price returned to the gritty urban landscape of his national bestseller Clockers to produce Freedomland, a searing and unforgettable novel about a hijacked car, a missing child, and an embattled neighborhood polarized by racism, distrust, and accusation. Freedomland hit bestseller lists from coast to coast, including those of the Boston Globe, USA Today and Los Angeles Times; garnered

universally rave reviews; and was selected as the Grand Prize Winner of the Imus American Book Award and as a New York Times Notable Book. On May 11, this highly lauded bestseller is available in paperback for the first time. A white woman, her hands gashed and bloody, stumbles into an inner-city emergency room and announces that she has just been carjacked by a black man. But then comes the horrifying twist: Her young son was asleep in the back seat, and he has now disappeared into the night. So begins Richard Price's electrifying new novel, a tale set on the same turf--Dempsey, New Jersey--as *Clockers*. Assigned to investigate the case of Brenda Martin's missing child is detective Lorenzo Council, a local son of the very housing project targeted as the scene of the crime. Under a white-hot media glare, Lorenzo launches an all-out search for the abducted boy, even as he quietly explores a different possibility: Does Brenda Martin know a lot more about her son's disappearance than she's admitting? Right behind Lorenzo is Jesse Haus, an ambitious young reporter from the city's evening paper. Almost immediately, Jesse suspects Brenda of hiding something. Relentlessly, she works her way into the distraught mother's fragile world, befriending her even as she looks for the chance to break the biggest story of her career. As the search for the alleged carjacker intensifies, so does the simmering racial tension between Dempsey and its mostly white neighbor, Gannon. And when the Gannon police arrest a black man from Dempsey and declare him a suspect, the animosity between the two cities threatens to boil over into violence. With the media swarming and the mood turning increasingly ugly, Lorenzo must take desperate measures to get to the bottom of Brenda Martin's story. At once a suspenseful mystery and a brilliant portrait of two cities locked in a death-grip of explosive rage, *Freedomland* reveals the heart of the urban American experience--dislocated, furious, yearning--as never before. Richard Price has created a vibrant, gut-wrenching masterpiece whose images will remain long after the final, devastating pages.

The Goddess and the Bull - Michael Balter 2016-06-16

Veteran science writer Michael Balter skillfully weaves together many threads in this fascinating book about one of archaeology's most legendary sites— Çatalhöyük. First excavated forty years ago, the site is justly revered by prehistorians, art historians, and New Age goddess worshippers alike for its spectacular finds dating almost 10,000 years ago. Archaeological maverick Ian Hodder, leader of the recent re-excavation at this Turkish mound, designated Balter as the project's biographer. The result is a skillful telling of many stories about both past and present: of the inhabitants of Neolithic Çatalhöyük and the development of human creativity and ingenuity, as revealed in the recent excavation; of James Mellaart, the original excavator, whose troubles off the mound eventually overshadowed his incisive work at the site; of Hodder and his intense, brilliant crew who marveled and squabbled over the meaning of finds in dusty trenches while attempting to reinterpret Mellaart's work; and of the recent history of the theory and methods of archaeology itself. Part story of the human past, part soap opera of modern scholarly life, part textbook on the practice of modern archaeology, this book should appeal to general readers and archaeological students alike.

The Secret of Rover - Rachel Wildavsky 2015-08-11

The Secret of Rover follows the clever and resourceful twins Katie and David as they race across country in their attempt to outwit an international team of insurgents who hold their parents and baby sister captive in a foreign land. Held hostage because they invented a spy technology called Rover that can locate anyone in the world, Katie and David's parents are in grave danger. Now, it's up to Katie and David to rescue them. But first they must find their reclusive uncle, whom they have never met—the only person they know who can help them. This page-turning story from a debut author with insider knowledge of Washington is fun, suspenseful, and convincingly real. Praise for The Secret of Rover *STARRED REVIEW* "David and Katie's relationship is realistically and amusingly portrayed in all its sibling rivalry and friendship. Fun, intelligent, political page-turner." -School Library Journal, starred review "One of the drawbacks of young-adult fiction these days is that compelling stories, well told, so often include both expletives and depictions of dark unpleasantness that many parents would rather their teenagers not encounter. Rachel Wildavsky's The Secret of Rover offers a considerably gentler degree of tension for children. Somehow, even as the action heads toward its big conclusion, it all happens without expletives." -Wall Street Journal "As if a road trip without any money isn't exciting enough, escape from demented villains ups the ante in this survival tale with international-spy overtones. Sort of a 24 for middle-grade readers. Fans of spy stories and political intrigue will find plenty to appreciate here..." -Kirkus Reviews "Kids making the transition from series mysteries to more sophisticated thrillers will do well by this suspenseful and age-appropriate drama." -Bulletin of the Center for Children's Books "Let's hope that the sequel won't be so long in appearing, because children need more first class books to read." -The Washington Examiner "Wildavsky spins a yarn that's tight and compelling, balancing high-stakes jeopardy (escaping kidnappers in a high-speed car chase) with more basic, earthy troubles (what to eat and where to go to the bathroom). Carefully placed bread crumbs will satisfy young mystery enthusiasts, while the sweet, detailed portrait of a tightly knit family will widen this title's appeal." -Booklist

Lands of Lost Borders - Kate Harris 2019-05-07
NATIONAL BESTSELLER WINNER OF THE RBC TAYLOR PRIZE
WINNER OF THE EDNA STAEBLER AWARD FOR CREATIVE NON-FICTION "Every day on a bike trip is like the one before--but it is also completely different, or perhaps you are different, woken up in new ways by the mile." As a teenager, Kate Harris realized that the career she most craved--that of a generalist explorer, equal parts swashbuckler and philosopher--had gone extinct. From her small-town home in Ontario, it seemed as if Marco Polo, Magellan and their like had long ago mapped the whole earth. So she vowed to become a scientist and go to Mars. To pass the time before she could launch into outer space, Kate set off by bicycle down a short section of the fabled Silk Road with her childhood friend Mel Yule, then settled down to study at Oxford and MIT. Eventually the truth dawned on her: an explorer, in any day and age, is by definition the kind of person who refuses to live between the lines. And Harris had soared most fully out of bounds right here on Earth, travelling a bygone trading route on her bicycle. So she quit the laboratory and hit the Silk Road again with Mel, this time determined to bike it from the beginning to end. Like Rebecca Solnit and Pico Iyer before her, Kate Harris offers a travel narrative at once exuberant and meditative, wry and rapturous. Weaving adventure and deep reflection with the history of science and exploration, Lands of Lost Borders explores the nature of limits and the wildness of a world that, like the self and like the stars, can never be fully mapped.

[Fear Is the Rider](#) - Kenneth Cook 2016-01-27

It was quite silent in the scrub. No breeze stirred the leaves and no bird moved, except for the kite hawks wheeling silently, eternally, high in the hot air. She smelt her attacker before she saw him. A heavy stench hit her with such force that she started with shock. It was a smell she'd never encountered before. Not man, not animal, something like carrion, but alive. It seemed to envelop and suffocate her, then became tangible as two arms wrapped around her body and began tearing at her clothing. A young man driving from Sydney to Adelaide for work decides to take a short detour into the desert. He turns his hatchback on to a notoriously dangerous track that bisects uninhabited stone-covered flats. Out there, under the baking sun, people can die within hours. He's not far along the road when a distraught young woman stumbles from the scrub and flags him down. A journalist from Sydney, she has just escaped the clutches of an inexplicable, terrifying creature. Now this desert-dwelling creature has her jeep. Her axe. And her scent... From the author of the classic novel *Wake In Fright* comes a chillingly brilliant short novel that's part *Wolf Creek* and part *Duel*. *Fear Is the Rider* is a nail-biting chase into the outback, towards the devil lurking at its centre. *Wake In Fright* was

made into an internationally acclaimed film. *Fear Is the Rider* is a previously unpublished manuscript from the 1980s that was recently rediscovered among Kenneth Cook's papers. Kenneth Cook was born in Sydney. *Wake In Fright*, which drew on his time as a journalist in Broken Hill, was first published in 1961 when Cook was 32. It was published in England and America, translated into several languages, and was a prescribed text in schools. Cook wrote twenty-two books in a variety of genres, and was well known in film circles as a scriptwriter and independent film-maker. He died in 1987. 'Fantastic, breath-taking, edge of the seat stuff.' *Col's Criminal Library* 'This lost Ozploitation gem is pure horror adrenaline, as characters and reader alike are hunted by a relentless golem—the nightmare outback monster we've always feared.' Chris Flynn, author of *A Tiger in Eden* and *The Glass Kingdom* 'The moment to moment effect of reading *Fear Is the Rider* is one of gasping attentiveness to the urgent needs of the present...There is special, pulpy kind of genius to the kind of book that almost swipes ahead for us, like a concert pianist's assistant.' Australian 'Another great retro thriller. Treat it like going to a movie, because it will only take you a couple of hours to power through it...It's just pure adrenaline and survival.' *Herald Sun* 'A suspense packed ride until the final page.' *QANTAS Magazine* 'Possibly the scariest, most spine-chilling and nerve-wracking book I've read. Ever...It's incredibly filmic—think *Wolf Creek* meets *Mad Max*—and so visceral I could feel my heart rising up in my throat as I turned the pages.' *Reading Matters* 'A schlocky, old-school thriller in the best possible way...A kind of literary *Mad Max*, a master class in Ozploitation, or simply as a short, sharp burst of literary adrenaline, *Fear is the Rider* is a hell of a lot of fun.' *Readings* '[A] short but powerful novel, Cook takes the reader on an action-packed, tension-filled ride...Definitely a page-turner.' *BookMooch*

There's No Such Thing as Bad Weather - Linda Åkeson McGurk 2017-10-03

Bringing Up Bébé meets Last Child in the Woods in this “fascinating exploration of the importance of the outdoors to childhood development” (Kirkus Reviews) from a Swedish-American mother who sets out to discover if the nature-centric parenting philosophy of her native Scandinavia holds the key to healthier, happier lives for her American children. Could the Scandinavian philosophy of “There’s no such thing as bad weather, only bad clothes” hold the key to happier, healthier lives for American children? When Swedish-born Linda Åkeson McGurk moved to Indiana, she quickly learned that the nature-centric parenting philosophies of her native Scandinavia were not the norm. In Sweden, children play outdoors year-round, regardless of the weather, and letting babies nap outside in freezing temperatures is common and recommended by physicians. Preschoolers spend their days climbing trees, catching frogs, and learning to compost, and environmental education is a key part of the public-school curriculum. In the US, McGurk found the playgrounds deserted, and preschoolers were getting drilled on academics with little time for free play in nature. And when a swimming outing at a nearby creek ended with a fine from a park officer, McGurk realized that the parenting philosophies of her native country

and her adopted homeland were worlds apart. Struggling to decide what was best for her family, McGurk embarked on a six-month journey to Sweden with her two daughters to see how their lives would change in a place where spending time in nature is considered essential to a good childhood. Insightful and lively, *There’s No Such Thing as Bad Weather* is a fascinating personal narrative that illustrates how Scandinavian culture could hold the key to raising healthy, resilient, and confident children in America.

[The Man Who Caught the Storm](#) - Brantley Hargrove 2018-04-03

The saga of the greatest tornado chaser who ever lived: a tale of obsession and daring and an extraordinary account of humanity's high-stakes race to understand nature's fiercest phenomenon from Brantley Hargrove, "one of today's great science writers" (The Washington Post). At the turn of the twenty-first century, the tornado was one of the last true mysteries of the modern world. It was a monster that ravaged the American heartland a thousand times each year, yet science's every effort to divine its inner workings had ended in failure. Researchers all but gave up, until the arrival of an outsider. In a field of PhDs, Tim Samaras didn't attend a day of college in his life. He chased storms with brilliant tools of his own invention and pushed closer to the tornado than anyone else ever dared. When he achieved what meteorologists had deemed impossible, it was as if he had snatched the fire of the gods. Yet even as he transformed the field, Samaras kept on pushing. As his ambitions grew, so did the risks. And when he finally met his match—in a faceoff against the largest tornado ever recorded—it upended everything he thought he knew. Brantley Hargrove delivers a "cinematically thrilling and scientifically wonky" (Outside) tale, chronicling the life of Tim Samaras in all its triumph and tragedy. Hargrove takes readers inside the thrill of the chase, the captivating science of tornadoes, and the remarkable character of a man who walked the line between life and death in pursuit of knowledge. *The Man Who Caught the Storm* is an "adrenaline rush of a tornado chase...Readers from all across the spectrum will enjoy this" (Library Journal, starred review) unforgettable exploration of obsession and the extremes of the natural world.

[The Case For Mars](#) - Robert Zubrin 2012-12-11

Since the beginning of human history Mars has been an alluring dream; the stuff of legends, gods, and mystery. The planet most like ours, it has still been thought impossible to reach, let alone explore and inhabit. Now with the advent of a revolutionary new plan, all this has changed. Leading space exploration authority Robert Zubrin has crafted a daring new blueprint, Mars Direct, presented here with illustrations, photographs, and engaging anecdotes. *The Case for Mars* is not a vision for the far future or one that will cost us impossible billions. It explains step-by-step how we can use present-day technology to send humans to Mars within ten years; actually produce fuel and oxygen on the planet's surface with Martian natural resources; how we can build bases and settlements; and how we can one day "terraform" Mars; a process that can alter the atmosphere of planets and pave the way for sustainable life.

[The Search for Life on Mars](#) - Elizabeth Howell 2020-07-07

Published to coincide with the launch of NASA's Perseverance rover mission this summer, the definitive account of our quest to find life on the Red Planet. From *The War of the Worlds* to *The Martian* and to the amazing photographs sent back by the robotic rovers Curiosity and Opportunity, Mars has excited our imaginations as the most likely other habitat for life in the solar system. Now the Red Planet is coming under scrutiny as never before. As new missions are scheduled to launch this year from the United States and China, and from Kazakhstan in 2022, this book recounts in full the greatest scientific detective story ever. For the first time in forty years, the missions heading to Mars will look for signs of ancient life on the world next door. It is the latest chapter in an age-old quest that encompasses myth, false starts, red herrings, and bizarre coincidences—as well as triumphs and heartbreaking failures. This book, by two journalists with deep experience covering space exploration, is the definitive story of how life's discovery has eluded us to date, and how it will be found somewhere and sometime this century. *The Search for Life on Mars* is based on more than a hundred interviews

with experts at NASA's Jet Propulsion Laboratory and elsewhere, who share their insights and stories. While it looks back to the early Mars missions such as Viking 1 and 2, the book's focus is on the experiments and revelations from the most recent ones—including Curiosity, which continues to explore potentially habitable sites where water was once present, and the Mars Insight lander, which has recorded more than 450 marsquakes since its deployment in late 2018—as well as on the Perseverance and ExoMars rover missions ahead. And the book looks forward to the newest, most exciting frontier of all: the day, not too far away, when humans will land, make the Red Planet their home, and look for life directly.
