Rereading - Matei Călinescu 1993  
What motivates us to reread literary works? How is our pleasure, interpretation, involvement, and evaluation

different when we read a literary work and when we reread it? This fascinating book by Matei Calinescu is the first to focus on the implications of rereading for critical understanding. Drawing on literary theory, cultural anthropology, psychology, philosophy, and previous theories of reading, Calinescu describes the dynamics of rereading and explores the sometimes complementary, sometimes sharply conflicting relationships between reading and rereading. Calinescu analyzes fictional works by Borges, Nabokov, Proust, Robbe-Grillet, and Henry James, among others, explaining how reading texts is related both to symbolic play or make-believe and to games with rules. He reviews the history of reading in modern times, discussing, for example, how the Reformation led to rereadings of Scripture and how the proliferation of books during the Enlightenment led to a shift from "intensive reading" to "extensive reading." Calinescu looks at

the distinctions between reading and rereading from the perspectives of the age, situation, and gender of the individual reader. He discusses the problems raised by secret or oblique languages and codes - devised to evade censors, communicate with a select audience of "secret sharers," or play games of hide-and-seek with the reader - and shows that they naturally lead to rereading a text. Calinescu argues persuasively that an understanding of rereading is useful in formulating both analytic strategies of practical criticism and a poetics of reading.

*A Medieval Woman's  
Companion* - Susan Signe-  
Morrison 2015-11-30

What have a deaf nun, the mother of the first baby born to Europeans in North America, and a condemned heretic to do with one another? They are among the virtuous virgins, marvelous maidens, and fierce feminists of the Middle Ages

who trail-blazed paths for women today. Without those first courageous souls who worked in fields dominated by men, women might not have the presence they currently do in professions such as education, the law, and literature. Focusing on women from Western Europe between c. 300 and 1500 CE in the medieval period and richly carpeted with detail, *A Medieval Woman's Companion* offers a wealth of information about real medieval women who are now considered vital for understanding the Middle Ages in a full and nuanced way. Short biographies of 20 medieval women illustrate how they have anticipated and shaped current concerns, including access to education; creative emotional outlets such as art, theater, romantic fiction, and music; marriage and marital rights; fertility, pregnancy, childbirth, contraception and gynecology; sex trafficking and sexual violence; the balance of work and family; faith; and disability. Their legacy abides until today

in attitudes to contemporary women that have their roots in the medieval period. The final chapter suggests how 20th and 21st century feminist and gender theories can be applied to and complicated by medieval women's lives and writings. Doubly marginalized due to gender and the remoteness of the time period, medieval women's accomplishments are acknowledged and presented in a way that readers can appreciate and find inspiring. Ideal for high school and college classroom use in courses ranging from history and literature to women's and gender studies, an accompanying website with educational links, images, downloadable curriculum guide, and interactive blog will be made available at the time of publication.

A Secret Affair - Mary Balogh  
2011-01-25

Born a commoner, Hannah Reid has been Duchess of Dunbarton since she was nineteen years old. Now her husband is dead and, more beautiful than ever at thirty, Hannah has her freedom at last. To the shock of a conventional friend, she announces her intention to take a lover—and not just any lover, but the most dangerous and delicious man in all of upper-class England: Constantine Huxtable. Constantine's illegitimacy has denied him the title of earl, so now he denies himself nothing. Rumored to be living the easy life of a sensualist on his country estate, he always chooses recent widows for his short-lived affairs. Hannah will fit the bill nicely. But once these two passionate and

scandalous figures find each other, they discover that it isn't so easy to extricate oneself from the fires of desire—without getting singed. Monitorul oficial al României - Romania 2004-03

Nagasaki Hibakusha's Prayer: Nagasaki Atomic Bomb Survivor's Sorrow and Prayer - Tatsuo Tomita 2021-08-02  
We lived in a Nagasaki suburb, 4.8 km from the hypocenter when an atomic bomb exploded over Nagasaki on August 9, 1945. There was huge bang, followed by burning heat wave and billowing huge mushroom cloud. My mother developed radiation sickness and succumbed to acute liver

failure in 3 months. My father was in the school building, 500 m from the hypocenter where the building collapsed instantaneously but he was alive by a miracle. He developed bone marrow failure and died in 15 months after the explosion and we three siblings became atomic bomb orphans. I made living by myself supporting my two young siblings doing manual labor since age 11. I worked at a fish processing factory for 5 years after finishing high school, then enrolled Tokyo Medical and Dental University in Tokyo. Two atomic bombs dropped over Hiroshima and Nagasaki claimed 330,000 innocent human lives, the majority of whom were civilians. We want to tell our story to the world how we suffered and survived through the hardship we endured. Atomic bomb is an utmost evil weapon and should not be used anywhere again. As an atomic bomb victim and survivor, I have devoted myself for the movement of nuclear-free world so that nobody has to experience the life we had

lived through. Our prayer for no more Nagasaki and no more Hiroshima.

*Organizational Encounters with Risk* - Bridget Hutter  
2005-12-01

Organizational encounters with risk range from errors and anomalies to outright disasters. In a world of increasing interdependence and technological sophistication, the problem of understanding and managing such risks has grown ever more complex. Organizations and their participants must often reform and reorganise themselves in response to major events and crises, dealing with the paradox of managing the potentially unmanageable. Organizational responses are influenced by many factors, such as the representational capacity of information systems and concerns with legal liability. In this collection, leading experts on risk management from a variety of disciplines address these complex features of organizational encounters with risk. They raise critical

questions about how risk can be understood and conceived by organizations, and whether it can be 'managed' in any realistic sense at all. This book is an important reminder that the organisational management of risk involves much more than the cool application of statistical method.

**Tabernacles of Clay** - Taylor G. Petrey 2020-04-17

Taylor G. Petrey's trenchant history takes a landmark step forward in documenting and theorizing about Latter-day Saints (LDS) teachings on gender, sexual difference, and marriage. Drawing on deep archival research, Petrey situates LDS doctrines in gender theory and American religious history since World War II. His challenging conclusion is that Mormonism is conflicted between ontologies of gender essentialism and gender fluidity, illustrating a broader tension in the history of sexuality in modernity itself. As Petrey details, LDS leaders have embraced the idea of fixed identities representing a natural and divine order, but their teachings also acknowledge that sexual difference is persistently

contingent and unstable. While queer theorists have built an ethics and politics based on celebrating such sexual fluidity, LDS leaders view it as a source of anxiety and a tool for the shaping of a heterosexual social order. Through public preaching and teaching, the deployment of psychological approaches to "cure" homosexuality, and political activism against equal rights for women and same-sex marriage, Mormon leaders hoped to manage sexuality and faith for those who have strayed from heteronormativity.

#### Lithium Therapy: a Personal

Tale of the Recent Decade - Janusz Rybakowski 2021-08-02  
Lithium is a first choice mood-stabilizer for the maintenance treatment of bipolar disorder. The drug can augment antidepressants in treatment-resistant depression and exerts anti-suicidal, immunomodulatory, and neuroprotective action. For the author of this book, clinical use and mechanism of therapeutic action of lithium have been a

leitmotiv since 1970. It resulted in multiple publications, and the book "Lithium - the amazing drug in psychiatry", published in 2020. Thirty-nine papers from the recent decade were selected here, in all of them Prof. Rybakowski is the first or the last author. The editorial in *Neuropsychobiology* on the 60th anniversary of lithium entering modern psychiatry is followed by the 2010 update on lithium in neuropsychiatry. The studies of an association between lithium efficacy and temperament as well as candidate genes are presented. The effects of lithium on cognitive, kidney, and thyroid functions were covered in many articles. The studies on lithium's biochemical mechanism with very small embryonic-like stem cells and mRNA of neuronal and glial markers are shown. Ultra-long-term therapy with lithium is described in five patients receiving lithium for more than 40 years, and in another paper, presenting a patient on lithium for half a century. Given the

clinical and biological properties of lithium, this drug is presently greatly underutilized and efforts should be undertaken for challenging lithium's skepticism and optimizing its long-term administration. Such a message was expressed in a special paper published in 2018 and in several "state of the art" papers on lithium in 2020. About the Author: Prof. Janusz K. Rybakowski was the Head, Department of Adult Psychiatry, Poznan University of Medical Sciences, 1995-2016, the Chairman, Department of Psychiatry, Medical Academy, Bydgoszcz, 1985-1995, the NIH Fogarty Research Fellow, University of Pennsylvania, Philadelphia, 1976-1977. He was the President of the Polish Psychiatric Association, 1998-2001. Authored over 700 scientific articles, Hirsch Index 56, and the books "The Faces of Manic-Depressive Illness" (2009) and "Lithium - the Amazing Drug in Psychiatry" (2020). A member of the Editorial Board of 16

international journals. In 2012, received the Lifetime Achievement Award of the European Bipolar Forum, in 2015, the Lifetime Achievement Award in Biological Psychiatry of the World Federation of the Societies of Biological Psychiatry, and 2018, the Mogens Schou scientific award of the International Society of Bipolar Disorders.
