Ako-Aya: A Cameroorian Pioneer in Daring Journalism and Social Commentary - E. N. Ngwafor 2010

"A thought-provoking document which in effect reminds Cameroonian journalists of the vital task and challenge of continuing a noble mission that was unfortunately terminated by an untimely death."-Dr Shey Peter Mabu, Veteran journalist and former Editor-in-Chief, CameroonTribune Patrick Tataw Obenson, alias Ako-Ayana, the rabid critic, social crusader and witty journalist, all rolled up in one, was indeed a popular and widely admired pioneer in daring journalism and social commentary in Cameroon. Little wonder that when he died, he left behind countless painful hearts and many questions on the lips of his admirers. As a man of the people, the fallen hero of Cameroon's Fleet Street shared his experiences, be they good or bad, with his readers. He was a virile critic even of the sordid things in which he himself secretly indulged.

Obenson's mind was open, and through his popular newspaper column-Ako-Aya-he exposed society and social action in all their dimensions. He had an axe to grind with all perpetrators of social vices, especially those of them that infringed on the rights of the common man. He gave them a good fight, using his newspaper as his only weapon-a weapon which could not be neutralized even by the most affluent for the most coercive leadership. And he did so with nerve and valour and venom. Only Tataw Obenson could spit out really scathing pieces of satire, aimed directly at the highest governing authorities of his society. Only Obenson could make allusions even to his own apparently ugly self. Only he could be liberal and honest enough to confess how he boarded a taxi and later

bolted without paying the driver. Only Obenson was able to foresee his imminent demise from the face of the earth and literarily wrote his own epitaph

New Media and Perennial Problems in Foreign Language Learning and Teaching - Liliana Piasecka 2014-11-28

The book concerns the ways in which the new media shape communication along with educational expectations and practices in foreign language classrooms. Although foreign language learners have cheap and easy access to information and ways of communication, they also wrestle with problems that have always accompanied language learning. The focus of the book is two-fold. On the one hand, the authors demonstrate how using social networks, videoconferencing, mobile phones, wikis, and computer-mediated interaction contributes to the development of language skills, negotiated interaction, autonomy, and intercultural competence. On the other, they discuss "old" issues pertaining to the role of vocabulary, corrective feedback, textbooks and inner speech in the process of language learning and use. Every chapter reports original empirical research on issues related to the new media and old problems in foreign language teaching contexts in various countries, and with respect to various age groups.

Media Transatlantic: Developments in Media and Communication Studies between North American and German-speaking Europe - Norm Friesen 2016-05-09

This book reflects recent scholarly and theoretical developments in media studies, or Medienwissenschaft. It focuses on linkages between North America and German-speaking Europe, and brings together and contextualizes contributions from a range of leading scholars. In addition to introducing English-language readers to some of the most prominent contemporary German media theorists and philosophers, including Claus Pias, Sybille Krämer and Rainer Leschke, the book shows how foundational North American contributions are themselves inspired and informed by continental sources. This book takes Harold Innis or Marshall McLuhan (and other members of the "Toronto School") as central points of reference, and traces prospective and retrospective lines of influence in a cultural geography that is increasingly global in its scope. In so doing, the book also represents a new episode in the international reception and reinterpretation of the work of Innis and McLuhan, the two founders of the theory and study of media. *Englisches in a Globalized World: Exploring Contact Effects on Other Languages* - Alexander Onysko 2022-11-03

Leadership, Authority and Representation in British Muslim Communities - Sophie Gilliat-Ray 2021-01-26

The contributions explore Muslim religious leadership in multiple forms and settings. While traditional authority is usually correlated with theology and piety, as in the case of classically trained ulema, the public advocacy of Muslim community concerns is often headed by those with professionalized skillsets and civic experience. In an increasingly digital world, both women and men exercise leadership in novel ways, and sites of authority are refracted from traditional loci, such as mosques and seminaries, to new and unexpected places. This collection provides systematic focus on a topic that has hitherto been given rather diffuse consideration. It complements historical work on community leadership as well as more contemporary discussion on the training and role of Islamic religious authorities. It will be of interest to scholars in Religious Studies, Sociology, Political Science, History, and Islamic Studies.

The Elements of Journalism - Bill Kovach 2001-07-24

In July 1997, twenty-five of America's most influential journalists sat down to try and discover what had happened to their profession in the years between Watergate and Whitewater. What they knew was that the public no longer trusted the press as it once had. They were keenly aware of the pressures that advertisers and new technologies were putting on newsrooms around the country. But, more than anything, they were aware that readers, listeners, and viewers — the people who use the news — were turning away from it in droves. There were many reasons for the public's growing lack of trust. On television, there were the ads that looked like news shows and programs that presented gossip and press releases as if they were news. There were the "docudramas," television movies that were an uneasy blend of fact and fiction and which purported to show viewers how events had "really" happened. At newspapers and magazines, celebrity was replacing news, newsroom budgets were being slashed, and editors were pushing journalists for more "edge" and "attitude" in place of reporting. And, on the radio, powerful talk personalities led their listeners from sensation to sensation, from fact to fantasy, while deriding traditional journalism. Fact was blending with fiction, news with entertainment, journalism with rumor. Calling themselves the Committee of Concerned Journalists, the twenty-five determined to find how the news had found itself in this state. Drawn from the committee's years of intensive research, dozens of surveys of readers, listeners, viewers, editors, and journalists, and more than one hundred intensive interviews with journalists and editors, *The Elements of Journalism* is the first book ever to spell out — both for those who create and those who consume the news — the principles and responsibilities of journalism. Written by Bill Kovach and Tom Rosenstiel, two of the nation's preeminent press critics, this is one of the most provocative books about the role of information in society in more than a generation and one of the most important ever written about news. By offering in turn each of the principles that should govern reporting, Kovach and Rosenstiel show how some of the most common conceptions about the press, such as neutrality, fairness, and balance, are actually modern misconceptions. They also spell out how the news should be gathered, written, and reported even as they demonstrate why the First Amendment is on the brink of becoming a commercial right rather than something any American citizen can enjoy. *The Elements of Journalism* is already igniting a national dialogue on issues vital to us all. This book will be the starting point for discussions by journalists and members of

the public about the nature of journalism and the access that we all enjoy to information for years to come.

English Studies in Indian Universities - Ravindra Baburao Tasildar 2019-01-22

Right from its formal introduction in India in 1835, through Thomas B. Macaulay's Minute, English has been intrinsically linked with the employment prospects of Indians. During their regime, the British promoted English education to fulfil the requirement of English-knowing Indians for administrative purposes. Owing to globalization, the last few years have witnessed the opening up of thousands of lucrative job opportunities for graduates proficient in English. English has gained importance in India as the language of opportunities. In colonial India, English education was a passport to government jobs, while in the twenty-first century, proficiency in English is essential for private sector jobs. This book examines the development of curricula in English in Indian universities vis-a-vis the needs of second language learners studying in Special English programmes of Bachelor of Arts (BA). It also reflects on how globalization has strengthened the connection between English and employment.

Investigations in Teaching and Learning Languages - Danuta Gabryś-Barker 2014-07-08

The book presents most recent investigations into foreign language teaching and learning discussed by prominent scholars in the field. A wide variety of topics ranges from theoretical approaches to foreign language instruction to a discussion of findings of empirical research in language learning and pedagogy. The theoretical part of the volume tackles issues which constitute the backbone to the understanding of the processes involved in language development, learning and teaching and thus contribute to applied research. The empirical articles in Parts Two and Three of the volume report on studies focusing on such important issues as various dimensions of awareness (language, cross-cultural competence or affectivity) and specific methodologies implemented in different educational settings (such as, for instance, dyslexic learners) or in teacher training programmes.

Turn-taking in human communicative interaction - Judith Holler 2016-05-09

The core use of language is in face-to-face conversation. This is characterized by rapid turn-taking. This turn-taking poses a number central puzzles for the psychology of language. Consider, for example, that in large corpora the gap between turns is on the order of 100 to 300 ms, but the latencies involved in language production require minimally between 600 ms (for a single word) or 1500 ms (for as simple sentence). This implies that participants in conversation are predicting the ends of the incoming turn and preparing in advance. But how is this done? What aspects of this prediction are done when? What happens when the prediction is wrong? What stops participants coming in too early? If the system is running on prediction, why is there consistently a mode of 100 to 300 ms in response time? The timing puzzle raises further puzzles: it seems that comprehension must run parallel with the preparation for production, but it has been presumed that there are strict cognitive limitations on more than one central process running at a time. How is this bottleneck overcome? Far from being 'easy' as some psychologists have suggested, conversation may be one of the most demanding cognitive tasks in our everyday lives. Further questions naturally arise:

how do children learn to master this demanding task, and what is the developmental trajectory in this domain? Research shows that aspects of turn-taking, such as its timing, are remarkably stable across languages and cultures, but the word order of languages varies enormously. How then does prediction of the incoming turn work when the verb (often the informational nugget in a clause) is at the end? Conversely, how can production work fast enough in languages that have the verb at the beginning, thereby requiring early planning of the whole clause? What happens when one changes modality, as in sign languages - with the loss of channel constraints is turn-taking much freer? And what about face-to-face communication amongst hearing individuals - do gestures, gaze, and other body behaviors facilitate turn-taking? One can also ask the phylogenetic question: how did such a system evolve? There seem to be parallels (analogies) in duetting bird species, and in a variety of monkey species, but there is little evidence of anything like this among the great apes. All this constitutes a neglected set of problems at the heart of the psychology of language and of the language sciences. This Research Topic contributes to advancing our understanding of these problems by summarizing recent work from psycholinguists, developmental psychologists, students of dialog and conversation analysis, linguists, phoneticians, and comparative ethologists.

Sanathana Sarathi English Volume 05 (2000 to 2010) - Sri Sathya Sai Media Centre 2022-11-11

Started in 1958, Sanathana Sarathi is a monthly magazine devoted to Sathya (Truth), Dharma (Righteousness), Shanti (Peace) and Prema (Love) - the four cardinal principles of Bhagawan Baba's philosophy. It is published from Prasanthi Nilayam (the Abode of Highest Peace) and acts as a mouthpiece of Baba's Ashram as it speaks of the important events that take place in His sacred Abode, besides carrying Divine Messages conveyed through Divine Discourses of Bhagawan Sri Sathya Sai Baba. The word meaning of Sanathana Sarathi is the 'Eternal Charioteer'. It signifies the presence of the Lord in every being as the atma guiding their lives like a charioteer. It implies that he who places his life, the body being likened to a chariot, in an attitude of surrender in the hands of the Lord, will be taken care of by the Lord even as a charioteer would take the occupant of his chariot safely to its destination. The magazine is an instrument to disseminate spiritual knowledge for the moral, physical and mental uplift of humanity without any discrimination as the subject matter discussed therein is always of common interest and of universal appeal. The fifteen Vahinis - streams of sacredness - known as the Vahini Series comprising annotation and interpretation of the Upanishads and other scriptures, Itihasas like the Ramayana, the Bhagavatha and the Mahabharata, and authentic explanations on Dhyana, Dharma, Prema, etc., have been serially published in this magazine as and when they emanated from the Divine pen of Bhagawan Baba. This magazine is published in almost all Indian languages, English and Telugu from Prasanthi Nilayam and others from respective regions. Every year Sanathana Sarathi comes out with a special issue in November commemorating the Divine Birthday. The English and Telugu magazines are posted on the 10th and 23rd respectively, of every month, from Prasanthi Nilayam. This magazine has wide, ever increasing circulation in India as well as abroad, as the study of it brings the reader closer to the philosophy of the Avatar in simple understandable language **THUS SPAKE SAI...** Discoursing during the launch of Sanathana Sarathi... From this day, our Sanathana Sarathi will lead to victory the cohorts of truth - the Vedas, the Sastras and similar scriptures of all faiths, against the forces of the ego such as injustice, falsehood, immorality and cruelty.

This is the reason why it has emerged. This Sarathi will fight in order to

establish world prosperity. It is bound to sound the paeon of triumph when universal Ananda is achieved.
