Open Education: from OERs to MOOCs - Mohamed Jemni 2016-08-11
This book focuses on the emerging phenomenon of Massive Open Online Courses (MOOCs), which are changing the fundamental underpinning of educational systems worldwide and forcing educators and other stakeholders to re-think the way instruction is currently conducted. It examines the origins of MOOCs within the context of the open education movement, and reviews current policies, guidelines and initiatives to promote the use of ICT in education through the development and use of open educational resources from international practices, including implementation and licensing issues. With a particular focus on new trends in MOOCs, the book explores the potential of this emerging paradigm, its rise and its impact on openness in education. Various new initiatives are also presented, including more global examples and those that are more geared to certain regional contexts. The book is intended as a stepping stone for both researchers and practitioners who are looking to approach MOOCs from a holistic perspective.

The Woman Who Had Two Navels and Tales of the Tropical Gothic - Nick Joaquin 2017-04-18
Celebrating the centennial of his birth, the first-ever U.S. publication of Philippine writer Nick Joaquin's seminal works, with a foreword by PEN/Open Book Award–winner Gina Apostol A New York Times Book Review Editor's Choice Nick Joaquin is widely considered one of the greatest Filipino writers, but he has remained

little-known outside his home country despite writing in English. Set amid the ruins of Manila devastated by World War II, his stories are steeped in the post-colonial anguish and hopes of his era and resonate with the ironic perspectives on colonial history of Gabriel García Márquez and Mario Vargas Llosa. His work meditates on the questions and challenges of the Filipino individual's new freedom after a long history of colonialism, exploring folklore, centuries-old Catholic rites, the Spanish colonial past, magical realism, and baroque splendor and excess. This collection features his best-known story, "The Woman Who Had Two Navels," centered on Philippine emigrants living in Hong Kong and later expanded into a novel, the much-anthologized stories "May Day Eve" and "The Summer Solstice" and a canonic play, A Portrait of the Artist as Filipino. As Penguin Classics previously launched his countryman Jose Rizal to a wide audience, now Joaquin will find new readers with the first American collection of his work. Introduction and Suggestions for Further Reading by Vicente L. Rafael For more than seventy years, Penguin has been the leading publisher of classic literature in the English-speaking world. With more than 1,700 titles, Penguin Classics represents a global bookshelf of the best works throughout history and across genres and disciplines. Readers trust the series to provide authoritative texts enhanced by introductions and notes by distinguished scholars and contemporary authors, as well as up-to-date translations by award-winning translators.

Enabling Innovation - Sabina Jeschke 2011-10-08
The capability to innovate in an on-going manner is emerging as a decisive key factor in today's world of business and work. The ability to stay competitive is becoming identical with the ability to innovate. This book originated from the research and development project "International Monitoring" and outlines the topic of innovative capability from a practice-oriented angle. Contributions of German and international experts offer an enlightening glimpse behind the scenes of innovations. The central issue is not the description of features of successful innovation processes or how innovations can be efficiently controlled and managed, but under which conditions they can emerge in the first place. In what way can individuals, organizations, networks and societies be enabled

to continuously induce innovations?

Lady Gaga: Looking for Fame - Paul Lester 2010-09-06
Lady Gaga: Looking For Fame - The Life Of A Pop Princess is the electrifying biography by Paul Lester and explores Stefani Germanotta's rapid rise to global stardom in the guise of the outrageous Lady Gaga. Hers has been a triumph achieved with the help of wild image-making, infectious pop hits and a teasing strand of ambiguous sexuality that has turned her into a gay icon. At heart it's the story of a unique self-made phenomenon – a Madonna for today. As an adoring fan of Freddie Mercury and David Bowie, Lady Gaga took the essence of 80s glam and reinvented it for the digital age. Commercially successful and critically accepted she shot from obscurity on Manhattan's Lower East Side club scene to worldwide fame in just a

couple of years. This is the story of her high-speed rise in the fame game, told with a mix of admiration and sharp journalistic insight.

Writing a War of Words - Lynda Mugglestone 2022-01-20

Writing a War of Words is the first exploration of the war-time quest by Andrew Clark - a writer, historian, and volunteer on the first edition of the Oxford English Dictionary - to document changes in the English language from the start of the First World War up to 1919. Clark's unique series of lexical scrapbooks, replete with clippings, annotations, and real-time definitions, reveals a desire to put living language history to the fore, and to create a record of often fleeting popular use. The rise of trench warfare, the Zeppelinophobia of total war, and descriptions of shellshock (and raid shock on the Home Front) all drew his attentive gaze. The archive includes examples from a range of sources, such as advertising, newspapers, and letters from the Front, as well as documenting social issues such as the shifting forms of representation as women 'did their bit' on the Home Front. Lynda's Mugglestone's fascinating investigation of this valuable archive reassesses the conventional accounts of language history during this period, recuperates Clark himself as another 'forgotten lexicographer', challenges the received wisdom on the inexpressibilities of war, and examines the role of language as an interdisciplinary lens on history.

Sociology of Law - Mathieu Deflem 2008-02-28
Since the classic contributions of Weber and Durkheim, the sociology of law has raised key questions on the place of law in society. Drawing together both theoretical and empirical themes, in this 2008 book Mathieu Deflem reviews the field's major accomplishments and reveals the value of the multiple ways in which sociologists study the social structures and processes of law. He discusses both historical and contemporary issues, from early theoretical foundations and the work of Weber and Durkheim, through the contribution of sociological jurisprudence, to the development of modern perspectives to clarify how sociologists study law. Chapters also look at the role of law in relation to the economy, politics, culture, and the legal profession; and aspects of law enforcement and the globalization of law. This book will appeal to scholars and

students of the sociology of law, jurisprudence, social and political theory, and social and political philosophy.

The Cyberunion Handbook: Transforming Labor Through Computer Technology - Arthur B Shostak 2015-02-24

In his original CyberUnion, the author presented a bold plan for unions to develop a more significant role in the 21st century by adopting four strategic aids - futuristics, innovations, services, and traditions (F-I-S-T) - knit together by cutting-edge Info Tech resources. CyberUnions in Action expands on the F-I-S-T model and looks at gains and setbacks in pioneering efforts to create "CyberUnions". It highlights relevant websites, and features interviews with key CyberUnion advocates (and some critics). Shostak reviews overseas union efforts for transferable lessons, and pays special attention to the AFL-CIO campaign to ensure Labor's advances in the use of computer networks, the Internet, wireless devices, and more.

Lady Gaga and Popular Music - Martin Iddon 2014-01-03

This book is a multi-faceted, interdisciplinary examination of the music and figure of Lady Gaga, combining approaches from scholars in cultural studies, art, fashion, and music. It represents one of the first scholarly volumes devoted to Lady Gaga, who has become, over a few short years, central to both popular (and, indeed, populist) as well as more scholarly thought in these areas and who, the contributors argue, is helping to shape—directly and indirectly—thought and culture both in the fields of the "scholarly" and the "everyday." Lady Gaga's output is firmly embedded in a self-consciously intellectual pop culture tradition, and her music videos are intertextually linked to icons of pop culture intelligentsia like Alfred Hitchcock and open to multiple interpretations. In examining her music and figure, this volume contributes both to debates on the status of intertextuality, held in tension with originality, and to debates on the figuring of the sexualized female body, and representations of disability. There is interest in these issues from a wide range of disciplines: popular musicology, film

studies, queer studies, women's studies, gender studies, disability studies, popular culture studies, and the burgeoning sub-discipline of aesthetics and philosophy of fashion.

Micromedia & E-learning 2.0 - Theo Hug 2006

Lady Gaga - Emily Herbert 2011-05-02
Queen of Pop, superstar, maverick, fashionista, Lady Gaga is one of the most recognisable and sensational pop stars for a generation. A true original, Gaga found fame the hard way, playing the grimy bars and burlesque shows of New York City, before finally relocating to Los Angeles to begin work on what would become her debut album The Fame. Constantly en vogue and always in the public eye, this is the biography of the rise and rise of Gaga, from her early life as a teenage protege, to her life as one of the most respected musicians and most recognised entertainers on the planet.
