Standard Guideline for the Collection and Depiction of Existing Subsurface Utility Data - 2003

CI/ASCE Standard 38-02 presents a credible system for classifying the quality of utility location information that is placed in design plans. The Standard addresses issues such as: how utility information can be obtained, what technologies are available to obtain that information; how that information can be conveyed to the information users; who should be responsible for typical collection and depiction tasks; what factors determine which utility quality level attribute to assign to data; and what the relative costs and benefits of the various quality levels are. Used as a reference or as part of a specification, the Standard will assist engineers, project and utility owners, and constructors in developing strategies to reduce risk by improving the reliability of information on existing subsurface utilities in a defined manner.

Everything Is Illuminated - Jonathan Safran Foer 2013-09-03

NEW YORK TIMES BESTSELLER. Jonathan Safran Foer's debut—"a funny, moving...deeply felt novel about the dangers of confronting the past and the redemption that comes with laughing at it, even when that seems all but impossible." (Time) With only a yellowing photograph in hand, a young man—also named

Jonathan Safran Foer—sets out to find the woman who might or might not have saved his grandfather from the Nazis. Accompanied by an old man haunted by memories of the war, an amorous dog named Sammy Davis, Junior, and the unforgettable Alex, a young Ukrainian translator who speaks in a sublimely butchered English, Jonathan is led on a quixotic journey over a devastated landscape and into an unexpected past. As their adventure unfolds, Jonathan imagines the history of his grandfather's village, conjuring a magical fable of startling symmetries that unite generations across time. As his search moves back in time, the fantastical history moves forward, until reality collides with fiction in a heart-stopping scene of extraordinary power. "Imagine a novel as verbally cunning as *A Clockwork Orange*, as harrowing as *The Painted Bird*, as exuberant and twee as *Candide*, and you have *Everything Is Illuminated* . . . Read it, and you'll feel altered, chastened—seared in the fire of something new." — Washington Post "A rambunctious tour de force of inventive and intelligent storytelling . . . Foer can place his reader's hand on the heart of human experience, the transcendent beauty of human connections. Read, you can feel the life beating." — Philadelphia Inquirer

Creative Curriculum - Teaching Strategies 1988-01-01

The Creative Curriculum comes alive! This videotape-winner of the 1989 Silver Apple Award at the National Educational Film and Video Festival-demonstrates how teachers set the stage for learning by creating a dynamic well-organized environment. It shows children

involved in seven of the interest areas in the The Creative Curriculum and explains how they learn in each area. Everyone conducts in-service training workshops for staff and parents or who teaches early childhood education courses will find the video an indispensable tool for explaining appropriate practice.

Farmer's Tax Guide - Publication 225 (For Use in Preparing 2020 Returns) - Internal Revenue Service 2021-03-04

vate, operate, or manage a farm for profit, either as owner or tenant. A farm includes livestock, dairy, poultry, fish, fruit, and truck farms. It also includes plantations, ranches, ranges, and orchards and groves. This publication explains how the federal tax laws apply to farming. Use this publication as a guide to figure your taxes and complete your farm tax return. If you need more information on a subject, get the specific IRS tax publication covering that subject. We refer to many of these free publications throughout this publication. See chapter 16 for information on ordering these publications. The explanations and examples in this publication reflect the Internal Revenue Service's interpretation of tax laws enacted by Congress, Treasury regulations, and court decisions. However, the information given does not cover every situation and is not intended to replace the law or change its meaning. This publication covers subjects on which a court may have rendered a decision more favorable to taxpayers than the interpretation by the IRS. Until these differing interpretations are resolved by higher court decisions, or in some other way, this publication will continue to present the interpretation by the IRS.

The context of natural forest management and FSC certification in Brazil - Claudia Romero
2015-12-30

Management decisions on appropriate practices and policies regarding tropical forests often need to be made in spite of innumerable uncertainties and complexities. Among the uncertainties are the lack of formalization of lessons learned regarding the impacts of previous programs and projects. Beyond the challenges of generating the proper information on these impacts, there are other difficulties that relate with how to socialize the information and knowledge gained so that change is transformational and enduring. The main complexities lie in understanding the interactions of social-ecological systems at different scales and how they varied through time in response to policy and other processes. This volume is part of a broad research effort to develop an independent evaluation of certification impacts with stakeholder input, which focuses on FSC certification of natural tropical forests. More specifically, the evaluation program aims at building the evidence base of the empirical biophysical, social, economic, and policy effects that FSC certification of natural forest has had in Brazil as well as in other tropical countries. The contents of this volume highlight the opportunities and constraints that those responsible for managing natural forests for timber production have experienced in their efforts to improve their practices in Brazil. As such, the goal of the studies in this volume is to serve as the foundation to design an impact evaluation framework of the impacts of FSC certification of natural forests in a participatory manner with interested parties, from institutions and organizations, to communities and individuals.

Book Business: Publishing Past, Present, and Future - Jason Epstein 2011-02-07

"An irresistible book about Grub Street, authorship and the literary marketplace."—Washington Post Book World
Jason Epstein has led arguably the most creative career in book publishing during the past half-century. He founded Anchor Books and launched the quality paperback revolution, cofounded the New York Review of Books, and created of the Library of America, the prestigious publisher of American classics, and The Reader's Catalog, the precursor of online bookselling. In this short book he discusses the severe crisis facing the book business today—a crisis that affects writers and readers as well as publishers—and looks ahead to the radically transformed industry that will revolutionize the idea of the book as profoundly as the introduction of movable type did five centuries ago.

Government to Government - Susan Johnson
2000

State and tribal governments have common purposes: to use public resources effectively and efficiently, to provide comprehensive services to their respective citizens, and to protect the natural environment, all while sustaining healthy economies. Neighboring governments, as a practical matter, share many aspects of their respective economic and social systems, and are connected through political and legal relationships. Although these mutual interests have created jurisdictional disputes that historically have been solved through litigation, there is an increasing need for cooperation. Public resources are an issue for all governments, and state and tribes can benefit by collaborating and pooling resources to the fullest extent possible.

Designing an Effective Pay for Performance Compensation System - Cynthia H. Ferentinos
2006-07

Federal Government agencies are moving to better align pay with performance & create organizational cultures that emphasize performance rather than tenure. However, agencies must invest time, money, & effort in the design of their pay for performance compensation systems in order to succeed. To help agencies understand the critical prerequisites to success & key decision points, a

review was conducted of professional & academic writings on the topic of pay for performance. This user-friendly guide summarizes the research findings. Contents: a summary of pay for performance; benefits & risks associated with pay for performance; pay for performance decision points; conclusions & recommendations; & bibliography. IBM Tivoli Directory Server for z/OS - Karan Singh 2011-07-07

This IBM® Redbooks® publication examines the IBM Tivoli® Directory Server for z/OS®. IBM Tivoli Directory Server is a powerful Lightweight Directory Access Protocol (LDAP) infrastructure that provides a foundation for deploying comprehensive identity management applications and advanced software architectures. This publication provides an introduction to the IBM Tivoli Directory Server for z/OS that provides a brief summary of its features and an examination of the possible deployment topologies. It discusses planning a deployment of IBM Tivoli Directory Server for z/OS, which includes prerequisites, planning considerations, and data stores, and provides a brief overview of the configuration process. Additional chapters provide a detailed discussion of the IBM Tivoli Directory Server for z/OS architecture that examines the supported back ends, discusses in what scenarios they are best used, and provides usage examples for each back end. The discussion of schemas breaks down the schema and provides guidance on extending it. A broad discussion of authentication, authorization, and security examines the various access protections, bind

mechanisms, and transport security available with IBM Tivoli Directory Server for z/OS. This chapter also provides an examination of the new Password Policy feature. Basic and advanced replication topologies are also covered. A discussion on plug-ins provides details on the various types of plug-ins, the plug-in architecture, and creating a plug-in, and provides an example plug-in. Integration of IBM Tivoli Directory Server for z/OS into the IBM Workload Manager environment is also covered. This publication also provides detailed information about the configuration of IBM Tivoli Directory Server for z/OS. It discusses deploying IBM Tivoli Directory Server for z/OS on a single system, with examples of configuring the available back ends. Configuration examples are also provided for deploying the server in a Sysplex, and for both basic and advanced replication topologies. Finally it provides guidance on monitoring and debugging IBM Tivoli Directory Server for z/OS.

DB2 Virtualization - Whei-Jen Chen 2009-11-25

Server virtualization technologies are becoming more popular to help efficiently utilize resources by consolidating servers. IBM®, the first company that developed and made available the virtual technology in 1966, offers advanced, powerful, reliable, and cost-saving virtualization technologies in various hardware and software products including DB2® for Linux, UNIX, and Windows. This IBM Redbooks® publication describes using IBM DB2 9 with server virtualization. We start with a general overview of virtualization and describe specific server virtualization technologies to highlight how the server virtualization technologies have been implemented. With this introduction anyone new to virtualization will have a better understanding of server virtualization and the industry server virtualization technologies available in the market. Following the virtualization concept, we describe in detail the setup, configuration, and managing of DB2 with three leading server virtualization technologies: IBM Power Systems™ with PowerVM™ VMware Hyper-V We discuss the virtual machine setup with DB2 in mind to help IT support understand the effective ways of setting up a virtual environment specific for DB2. We explain the

architecture and components of these three server virtualization technologies to allow DBAs to understand how a database environment using DB2 can benefit from using the server virtualization technologies. In addition, we discuss the DB2 features and functions that can take advantage of using server virtualization. These features are put into practice when describing how to set up DB2 with the three virtualization technologies discussed in this book. This book also includes a list of best practices from the various tests performed while using these virtualization technologies. These best practices can be used as a guideline or a reference when setting up DB2 using these virtualization technologies.

A Kissing Hand for Chester Raccoon - Audrey Penn 2014-04-15

During the last 20 years, parents and teachers have passed along the secret of the Kissing Hand to children facing first days of kindergarten, first grade, and other separations. Now younger children can get in on Mama Raccoon's secret and find comfort in *A Kissing Hand for Chester Raccoon*, a board-book adaptation of the original picture book. Chester could feel his mother's kiss straight into his heart. "With a Kissing Hand," said Chester's mom, "We'll never be apart." "Just press your hand upon your cheek and feel that loving glow. It's Mommy saying, 'I love you,' wherever you may go." The Kissing Hand has become a children's classic that has touched the lives of millions of children and their parents. *A Kissing Hand for Chester Raccoon* conveys the heart of the story in rhyming verse, perfect for read-aloud and easy for even the little ones to remember and recite. With illustrations by Barbara Gibson that capture the warmth and beauty of the original artwork, toddlers now share in the benefits from Mrs. Raccoon's secret for making a child feel safe and secure.

America Needs Talent - Jamie Merisotis 2015-09-01

The author of *Human Work in the Age of Smart Machines* presents "a sharp, timely blueprint for unleashing the potential of millions of Americans" (Bruce Kats, Founding Director of the Brookings Metropolitan Policy Program). The president and CEO of Lumina Foundation, Jamie Merisotis is a leading voice in philanthropy, higher education, and public policy. In *America Needs Talent*, he explains the choices that must be made on all levels—in government, education, and the private sector, as well as by individuals—to usher in a new era of success and innovation in America. What if you paid for education based on what you actually learned, instead of the time you spent in class? What if visa applicants were treated like potential assets to our nation's talent pool, rather than potential threats monitored by Homeland Security? Merisotis proposes bold ideas to successfully deploy the world's most talented people, revitalize urban hubs, encourage private sector innovation, and power America's knowledge economy in the 21st century.

I-Car Professional Automotive Collision Repair - James E. Duffy 2001

Today, more than ever, automotive collision

repair technicians are needed. However, to be a successful collision repair technician, the student must master a wide range of skills. The I-CAR Professional Automotive Collision Repair, 2e text will help students master those skills by providing them with the knowledge they need in an easy-to-understand format. This text provides an explanation of the theory behind a successful repair. It also provides information on the latest collision repair tools, equipment, and techniques and offers important safety tips and strategies for students to use in protecting themselves and the environment. Finally, it provides the foundation needed to prepare for the ASE Certification Exam and offers insight into what it takes to become a successful, well-rounded collision repair technician. - Preface.

Jersey Shore Impressionists - Roy Pedersen 2013

Water and light have seduced artists through the years and the quality of these elements at the New Jersey Shore continues to attract artists to this day. Between the late 1800s and 1940, an inspired group of painters were drawn to the New Jersey coastline, forming communities of artists. Jersey Shore Impressionists breaks new ground in the history of American art by recognizing the distinct influence of New Jersey and its Shore on impressionist era American painters. This book establishes - for the first time - a category of impressionist American painters who focused on, or were profoundly influenced by, the landscapes and seascapes of this Shore — from Sandy Hook and Highlands to the Barnegat Bay region to Cape May. “Not since 1964, nearly 50 years ago, and only once before that in 1938 has there been published a book on painters in New Jersey,” says the book's author, Roy Pedersen. “Never until now has there appeared a survey of the regional impressionist painters of New Jersey. This book and the accompanying exhibition for the first time celebrate these unrecognized works into the history of New Jersey and American art.” Jersey Shore Impressionists is produced in conjunction with a 2013 exhibition at the Morven Museum & Garden in Princeton, NJ. The exhibition, titled “Coastal Impressions: Painters of the Jersey Shore, 1880-1940” seeks to examine how the New Jersey shore was home to artist colonies whose output rivaled that of the better-known

colonies of Old Lyme and Cos Cob, Connecticut, and Bucks County, Pennsylvania. In a Foreword, Richard J. Boyle, former director of the Pennsylvania Academy of the Fine Arts, describes the foundation of art colonies, and how they traveled from origins in mid-nineteenth century France to the plein-air attraction of the Jersey Shore's “special light.” The first art colony - at Manasquan - forms around 1880 as young artists fresh from European training in Germany, France and Italy begin to arrive, and the book includes work from these artists - Will Hicok Low, Theodore Robinson, Albert Grantley Reinhart, Charles Freeman and Caroline Coventry Haynes. The next generation - Edward Boulton, Ida Wells Stroud, Julius Golz - trained in America, join and form new colonies to paint the unique light as well as the activities of the Shore. The passionate work created by these artists stands as an important, but unsung, chapter of American Impressionism and is celebrated in this book, establishing the important contribution to American art in general, and New Jersey's cultural heritage in particular.

Subsystem and Transaction Monitoring and Tuning with DB2 11 for z/OS - Paolo Bruni 2015-07-29

This IBM® Redbooks® publication discusses in detail the facilities of DB2® for z/OS®, which allow complete monitoring of a DB2 environment. It focuses on the use of the DB2 instrumentation facility component (IFC) to provide monitoring of DB2 data and events and includes suggestions for related tuning. We discuss the collection of statistics for the verification of performance of the various components of the DB2 system and accounting for tracking the behavior of the applications. We have intentionally omitted considerations for query optimization; they are worth a separate document. Use this book to activate the right traces to help you monitor the performance of your DB2 system and to tune the various aspects of subsystem and application performance.

The Saffron Kitchen - Yasmin Crowther 2007-08-28

In a powerful debut novel that moves between the crowded streets of London and the desolate mountains of Iran, Yasmin Crowther paints a stirring portrait of a family shaken by events from decades ago and worlds away. On a rainy day in London the dark secrets and troubled past of Maryam Mazar surface violently, with tragic consequences for her daughter, Sara, and her newly orphaned nephew. Maryam leaves her English husband and family and returns to the remote Iranian village where her story began. In a quest to piece their life back together, Sara follows her mother and finally learns the terrible price Maryam once had to pay for her freedom, and of the love she left behind. Set against the breathtaking beauty of two very different places, this stunning family drama transcends culture and is, at its core, a rich and haunting narrative about mothers and daughters.

IBM IMS Solutions for Automating Database Management - Paolo Bruni 2014-12-09

Over the last few years, IBM® IMSTM and IMS tools have been modernizing the interfaces to

IMS and the IMS tools to bring them more in line with the current interface designs. As the mainframe software products are becoming more integrated with the Windows and mobile environments, a common approach to interfaces is becoming more relevant. The traditional 3270 interface with ISPF as the main interface is no longer the only way to do some of these processes. There is also a need to provide more of a common looking interface so the tools do not have a product-specific interface. This allows more cross product integration. Eclipse and web-based interfaces being used in a development environment, tooling using those environments provides productivity improvements in that the interfaces are common and familiar. IMS and IMS tools developers are making use of those environments to provide

tooling that will perform some of the standard DBA functions. This book will take some selected processes and show how this new tooling can be used. This will provide some productivity improvements and also provide a more familiar environment for new generations DBAs. Some of the functions normally done by DBA or console operators can now be done in this eclipse-based environment by the application developers. This means that the need to request these services from others can be eliminated. This IBM Redbooks® publication examines specific IMS DBA processes and highlights the new IMS and IMS tools features, which show an alternative way to accomplish those processes. Each chapter highlights a different area of the DBA processes like: PSB creation Starting/stopping a database in an IMS system Recovering a database Cloning a set of databases
