Modern Hebrew for Intermediate Students - Esther Raizen 2016-01-15
Modern Hebrew for Intermediate Students—which is now revised and

updated—and Modern Hebrew for Beginners are the core of a multimedia program for the college-level Hebrew classroom developed at the University of Texas at Austin in the early 2000s. Within an intensive framework of instruction that assumes six weekly hours in the classroom, the program provides for two semesters of instruction, at the end of which most successful students will reach the intermediate-mid or intermediate-high levels of proficiency in speaking and reading, and some will reach advanced-low proficiency, as defined by the American Council on the Teaching of Foreign Languages (ACTFL). In addition to a variety of written exercises, the workbook includes vocabulary lists, reading selections, discussions of cultural topics, illustrations of grammar points, notes on registers, suggestions for class and individual activities, and glossaries. The workbook is complemented by a website (http://www.laits.utexas.edu/hebrew) that provides short video segments originally scripted and filmed in Israel and the United States, vocabulary flashcards with sound, interactive exercises on topics included in the workbook, sound files parallel to the reading selections in the workbook, and additional materials that enhance the learning experience. The stability of the workbook, combined with the dynamic nature of the website and the internet searches the students are directed to conduct, allows language instructors to reshape the curriculum and adapt it to the needs of their students and the goals of their programs.

The Tiberian Pronunciation Tradition of Biblical Hebrew, Volume 2 - Geoffrey Khan 2020-02-20

These volumes represent the highest level of scholarship on what is arguably the most important tradition of Biblical Hebrew. Written by the leading scholar of the Tiberian Masoretic tradition, they offer a wealth of new data and revised analysis, and constitute a considerable advance on existing published scholarship. It should stand alongside Israel Yeivin's 'The Tiberian Masorah' as an essential handbook for scholars of Biblical Hebrew, and will remain an indispensable reference work for decades to come. —Dr. Benjamin Outhwaite, Director of the Taylor-Schechter Genizah Research Unit, Cambridge University Library The form of Biblical Hebrew that is presented in printed

editions, with vocalization and accent signs, has its origin in medieval manuscripts of the Bible. The vocalization and accent signs are notation systems that were created in Tiberias in the early Islamic period by scholars known as the Tiberian Masoretes, but the oral tradition they represent has roots in antiquity. The grammatical textbooks and reference grammars of Biblical Hebrew in use today are heirs to centuries of tradition of grammatical works on Biblical Hebrew in Europe. The paradox is that this European tradition of Biblical Hebrew grammar did not have direct access to the way the Tiberian Masoretes were pronouncing Biblical Hebrew. In the last few decades, research of manuscript sources from the medieval Middle East has made it possible to reconstruct with considerable accuracy the pronunciation of the Tiberian Masoretes, which has come to be known as the 'Tiberian pronunciation tradition'. This book presents the current state of knowledge of the Tiberian pronunciation tradition of Biblical Hebrew and a full edition of one of the key medieval sources, Hidāyat al-Qāriʾ 'The Guide for the Reader', by ʾAbū al-Faraj Hārūn. It is hoped that the book will help to break the mould of current grammatical descriptions of Biblical Hebrew and form a bridge between modern traditions of grammar and the school of the Masoretes of Tiberias. Links and QR codes in the book allow readers to listen to an oral performance of samples of the reconstructed Tiberian pronunciation by Alex Foreman. This is the first time Biblical Hebrew has been recited with the Tiberian pronunciation for a millennium. The Schizoid Nature of Modern Hebrew - Paul Wexler 1990
Hebrew is regarded as a former living language which ceased to be a native language 1800 years ago, only to be given a spoken function anew in the late 19th century. Since the re-acquisition of a lost colloquial function has never been documented, Modern Hebrew has become an object of fascination among linguists and laymen alike.In this book the author claims- Modern Hebrew is not a direct continuation of monolingual Semitic Hebrew- Modern Hebrew was created when Yiddish speaker re-lexified their language to Biblical and Mishnaic Hebrew- Yiddish is a Slavic language, derived from Sorbian and thus, Modern Hebrew is a Slavic LanguageThese claims raise a number of

interesting questions: why do most speakers believe that Modern Hebrew is a Semitic language, what are the contributions of Modern Hebrew to the typology of diglossia, historical and genetic linguistics, universal grammar, 2nd language acquisition and political science?

Textbook of Israeli Hebrew - Haiim B. Rosén 1962
The aim of this book is to enable the student to read, write, and speak acceptable Israeli Hebrew and to understand less complex biblical Hebrew. A unique feature is the author's use of the principles of structural analysis. For students who are not acquainted with a language other than English, he elucidates those features of the language that are unfamiliar in the structure of English. The student is trained, from the first, to read "unvocalized" script as the native reader does, and "reading clues" (word and phrase patterns) are provided for this purpose. The work is organized into sections that can be worked through in an academic year—presentation of features, text samples, exercises, grammatical synopses, and individual and comprehensive glossaries. This text may be

used by teachers without specialized training in linguistics. It can be used by self-teaching students as well as by those at college level, and it will valuable for immigrants to Israel.

A Reference Grammar of Mbili - Funwi F. Ayuninjam 1998
A Reference Grammar of Mbili explores the major linguistic components of the Mbili language from a primarily descriptive point of view and within the cultural context of this Bantu language spoken in Cameroon. It presents a detailed and accessible account of the roots and history of the language, clearly situated within both the Niger Congo language group in general and the Grassfield Bantu language sub group specifically. The language portion begins with a descriptive introduction to the sound segments of Mbili and the methods of combining them. It then moves into the suprasegments of the language, including tone, stress, and intonation; it investigates the interaction of tone, tense, and mood, as well as the distribution of tone and intonation in Mbili. Segmental and suprasegmental phonemes are related in terms of what they require, tolerate, and exclude. The next presentation deals with the morphology of nouns and verbs. On the one hand it establishes a structural identification of the noun classes and determines a functional and semantic categorization of the classifiers; on the other

hand it identifies and relates the temporal, aspectual, and modal categories of Mbili, and also studies the semantics of the verb through a case grammar analysis. Finally, the book approaches syntax through a clause and sentence level of analysis to explain the nature of sentence structure in a manner related to English sentence structure. The appendix contains a lexicon as well as traditional folk stories and their translations to convey aspects of Cameroonian culture and examples of the nature of the Mbili language.

Usage-Based Studies in Modern Hebrew - Ruth A. Berman 2020-03-18
The goal of the volume is to shed fresh light on Modern Hebrew from perspectives aimed at readers interested in the domains of general linguistics, typology, and Semitic studies. Starting with chapters that provide background information on the evolution and sociolinguistic setting of the language, the bulk of the book is devoted to usage-based studies of the morphology, lexicon, and syntax of current Hebrew. Based primarily on original analyses of authentic spoken and online materials, these studies reflect varied theoretical frames-of-reference that are largely model-neutral in approach. To this end, the book presents a functionally motivated, dynamic approach to actual usage, rather than providing strictly structuralist or formal characterizations of particular linguistic systems. Such a perspective is particularly important in the case of a language undergoing accelerated processes of change, in which the gap between prescriptive dictates of the Hebrew Language Establishment and the actual usage of educated, literate but non-expert speaker-writers of current Hebrew is constantly on the rise.

A Reference Grammar of Modern Standard Arabic - Karin C. Ryding 2005-08-25
Publisher Description

A Guide to Biblical Hebrew Syntax - Bill T. Arnold 2003-11-24
This introduces and abridges the syntactical features of the original language of the Hebrew Bible or Old Testament. Scholars have made significant progress in recent decades in understanding Biblical Hebrew syntax. Yet intermediate readers seldom have access to this progress due to the technical jargon and

sometimes-obscure locations of the scholarly publications. This Guide is an intermediate-level reference grammar for Biblical Hebrew. As such, it assumes an understanding of elementary phonology and morphology, and defines and illustrates the fundamental syntactical features of Biblical Hebrew that most intermediate-level readers struggle to master. The volume divides Biblical Hebrew syntax, and to a lesser extent morphology, into four parts. The first three cover the individual words (nouns, verbs, and particles) with the goal of helping the reader move from morphological and syntactical observations to meaning and significance. The fourth section moves beyond phase-level phenomena and considers the larger relationships of clauses and sentences.
