The Republic of Letters - Marc Fumaroli 2018-09-18

A provocative exploration of intellectual exchange across four centuries of European history by the author of *When the World Spoke French*. In this fascinating study, preeminent historian Marc Fumaroli reveals how an imagined "republic" of ideas and interchange fostered the Italian Renaissance, the Enlightenment, and the French Revolution. He follows exchanges among Petrarch, Erasmus, Descartes, Montaigne, and others from the fifteenth through the eighteenth centuries, through revolutions in culture and society. Via revealing portraits and analysis, Fumaroli traces intellectual currents engaged with the core question of how to live a moral life--and argues that these men of letters provide an example of the exchange of knowledge and ideas that is worthy of emulation in our own time. Combining scholarship, wit, and reverence, this thought-

provoking volume represents the culmination of a lifetime of scholarship.

Constitutionalizing Economic Globalization -

David Schneiderman 2008-03-27

Are foreign investors the privileged citizens of a new constitutional order that guarantees rates of return on investment interests? Schneiderman explores the linkages between a new investment rules regime and state constitutions - between a constitution-like regime for the protection of foreign investment and the constitutional projects of national states. The investment rules regime, as in classical accounts of constitutionalism, considers democratically authorized state action as inherently suspect. Despite the myriad purposes served by constitutionalism, the investment rules regime aims solely to enforce limits, both inside and outside of national constitutional systems, beyond which citizen-driven politics will be disabled. Drawing on contemporary and historical case studies, the author argues that any transnational regime should encourage innovation, experimentation, and the capacity to imagine alternative futures for managing the relationship between politics and markets. These objectives have been best accomplished via democratic institutions operating at national, sub-national, and local levels.

Writing With Power - Peter Elbow 1998-07-09

A classic handbook for anyone who needs to write, *Writing With Power* speaks to everyone who has wrestled with words while seeking to gain power with them. Here, Peter Elbow emphasizes that the essential activities underlying good writing and the essential exercises promoting it are really not difficult at all. Employing a cookbook approach, Elbow provides the reader (and writer) with various recipes: for getting words down on paper, for revising, for dealing with an audience, for getting feedback on a piece of writing, and still other recipes for approaching the mystery of power in writing. In a new introduction, he offers his reflections on the original edition, discusses the responses from people who have followed his techniques, how his methods may differ from other processes, and how his original topics are still pertinent to today's writer. By taking risks and embracing mistakes, Elbow hopes the writer may somehow find a hold on

the creative process and be able to heighten two mentalities--the production of writing and the revision of it. From students and teachers to novelists and poets, *Writing with Power* reminds us that we can celebrate the uses of mystery, chaos, nonplanning, and magic, while achieving analysis, conscious control, explicitness, and care in whatever it is we set down on paper.

The Art of Life - Zygmunt Bauman 2013-05-20

In our individualized society we are all artists of life - whether we know it or not, will it or not and like it or not, by decree of society if not by our own choice. In this society we are all expected, rightly or wrongly, to give our lives purpose and form by using our own skills and resources, even if we lack the tools and materials with which artists' studios need to be equipped for the artist's work to be conceived and executed. And we are praised or censured for the results - for what we have managed or failed to accomplish and for what we have achieved and lost. In our liquid modern society we are also taught to believe that the purpose of the art of life should be and can be happiness - though it's not clear what happiness is, the images of a happy state keep changing and the state of happiness remains most of the time something yet-to-be-reached. This new book by Zygmunt Bauman - one of the most original and influential social thinkers writing today - is not a book of designs for the art of life nor a 'how to' book: the construction of a design for life and the way it is pursued is and cannot but be an individual responsibility and individual accomplishment. It is instead a brilliant account of conditions under which our designs-for-life are chosen, of the constraints that might be imposed on their choice and of the interplay of design, accident and character that shape their implementation. Last but not least, it is a study of the ways in which our society - the liquid modern, individualized society of consumers - influences (but does not determine) the way we construct and narrate our life trajectories.

The Fear of Barbarians - Tzvetan Todorov 2010-10-15

The relationship between Western democracies and Islam, rarely entirely comfortable, has in recent years become increasingly tense. A growing immigrant population and worries about cultural and political assimilation—exacerbated by terrorist attacks in the United States, Europe, and around the world—have provoked reams of commentary from all parts of the political spectrum, a frustrating majority of it hyperbolic or even hysterical. In *The Fear of Barbarians*, the celebrated intellectual Tzvetan Todorov offers a corrective: a reasoned and often highly personal analysis of the problem, rooted in Enlightenment values yet open to the claims of cultural

difference. Drawing on history, anthropology, and politics, and bringing to bear examples ranging from the murder of Theo van Gogh to the French ban on headscarves, Todorov argues that the West must overcome its fear of Islam if it is to avoid betraying the values it claims to protect. True freedom, Todorov explains, requires us to strike a delicate balance between protecting and imposing cultural values, acknowledging the primacy of the law, and yet strenuously protecting minority views that do not interfere with its aims. Adding force to Todorov's arguments is his own experience as a native of communist Bulgaria: his admiration of French civic identity—and Western freedom—is vigorous but non-nativist, an inclusive vision whose very flexibility is its core strength. The record of a penetrating mind grappling with a complicated, multifaceted problem, *The Fear of Barbarians* is a powerful, important book—a call, not to arms, but to thought.

Identity and Violence: The Illusion of Destiny (Issues of Our Time) - Amartya Sen 2007-02-17

“One of the few world intellectuals on whom we may rely to make sense out of our existential confusion.”—Nadine Gordimer In this sweeping philosophical work, Amartya Sen proposes that the murderous violence that has riven our society is driven as much by confusion as by inescapable hatred. Challenging the reductionist division of people by race, religion, and class, Sen presents an inspiring vision of a world that can be made to move toward peace as firmly as it has spiraled in recent years toward brutality and war.

Critical CALL - Proceedings of the 2015 EUROCALL Conference, Padova, Italy -

Francesca Helm 2015-12-02

The theme of the conference this year was Critical CALL, drawing inspiration from the work carried out in the broader field of Critical Applied Linguistics. The term 'critical' has many possible interpretations, and as Pennycook (2001) outlines, has many concerns. It was from these that we decided on the conference theme, in particular the notion that we should question the assumptions that lie at the basis of our praxis, ideas that have become 'naturalized' and are not called into question. Over 200 presentations were delivered in 68 different sessions, both in English and Italian, on topics related specifically to the theme and also more general CALL topics. 94 of these were submitted as extended papers and appear in this volume of proceedings.

The Cloven Viscount - Italo Calvino 2012-10-26

When a nobleman is split in two, his separate halves pursue different adventures in a fantastically macabre tale by the author of *Invisible Cities*. It is the seventeenth century, and the Viscount Medardo of Terralba must go into battle against the Turks. But the inexperienced warrior is soon bisected lengthwise by a cannonball. Through a miracle of stitching, one half of him survives, returning to his feudal estate to lead a lavishly evil life. But soon his other, virtuous half appears—also very much alive. When the two halves become rivals for the love of the same woman, there's no telling the lengths each will go to in order to win. Now available in an independent volume for the first time, this deliciously bizarre novella of is Calvino at his most devious and winning.

The American University - Talcott Parsons 2013-10-01

Marcovaldo - Italo Calvino 2012-10-26

A charming portrait of one man's dreams and schemes, by "the greatest Italian writer of the twentieth century" (*The Guardian*). In this enchanting book of linked stories, Italo Calvino charts the disastrous schemes of an Italian peasant, an unskilled worker in a drab northern industrial city in the 1950s and '60s, struggling

to reconcile his old country habits with his current urban life. Marcovaldo has a practiced eye for spotting natural beauty and an unquenchable longing for the unspoiled rural world of his imagination. Much to the continuing puzzlement of his wife, his children, his boss, and his neighbors, he chases his dreams and gives rein to his fantasies, whether it's sleeping in the great outdoors on a park bench, following a stray cat, or trying to catch wasps.

Unfortunately, the results are never quite what he anticipates. Spanning from the 1950s to the 1960s, the twenty stories in *Marcovaldo* are alternately comic and melancholy, farce and fantasy. Throughout, Calvino's unassuming masterpiece "conveys the sensuous, tangible qualities of life" (*The New York Times*).

Mobile Africa - Rijk van Dijk 2021-07-26

This anthology deals with the complexity, variety and experience of all the forms of mobility we witness today in Sub-Saharan Africa. Three sets of issues are being discussed. This book intends to turn the whole notion of mobility as a supposedly rupturing phenomenon on its head, emphasizing that rather through travelling connections are established and continuity is experienced. We are challenged to delve into the traveller's mind, to think and follow their multi-spatial livelihoods and to explore what it means to people if they move in a variety of spaces.

English Medium Instruction - Ernesto Macaro, 2018-02-19

Ernesto Macaro brings together a wealth of research on the rapidly expanding phenomenon of English Medium Instruction. Against a backdrop of theory, policy documents, and examples of practice, he weaves together research in both secondary and tertiary education, with a particular focus on the key stakeholders involved in EMI: the teachers and the students. Whilst acknowledging that the momentum of EMI is unlikely to be diminished, and identifying its potential benefits, the author raises questions about the ways it has been introduced and developed, and explores how we can arrive at a true cost-benefit analysis of its future impact. "This state-of-the-art monograph presents a wide-ranging, multi-perspectival yet coherent overview of research, policy, and practice of English Medium Instruction around the globe. It gives a thorough, in-depth, and

thought-provoking treatment of an educational phenomenon that is spreading on an unprecedented scale.” Guangwei Hu, National Institute of Education, Singapore Additional online resources are available at www.oup.com/elt/teacher/emi Ernesto Macaro is Professor of Applied Linguistics at the University of Oxford and is the founding Director of the Centre for Research and Development on English Medium Instruction at the university. Kant and the Platypus - Umberto Eco 2000-11-09

How do we know a cat is a cat . . . and why do we call it a cat? An “intriguing and often fascinating” look at words, perceptions, and the relationship between them (Newark Star-Ledger). In *Kant and the Platypus*, the renowned semiotician, philosopher, and bestselling author of *The Name of the Rose* and *Foucault’s Pendulum* explores the question of how much of our perception of things is based on cognitive ability, and how much on linguistic resources. In six remarkable essays, Umberto Eco explores in depth questions of reality, perception, and experience. Basing his ideas on common sense, Eco shares a vast wealth of literary and historical knowledge, touching on issues that affect us every day. At once philosophical and

amusing, *Kant and the Platypus* is a tour of the world of our senses, told by a master of knowing what is real and what is not. “An erudite, detailed inquiry into the philosophy of mind . . . Here, Eco is continental philosopher, semiotician, and cognitive scientist rolled all into one.” —Library Journal (starred review)

One, No One, and One Hundred Thousand - Luigi Pirandello 2018-10-22

Fiction. Translated from the Italian by William Weaver. Luigi Pirandello's extraordinary final novel begins when Vitangelo Moscarda's wife remarks that Vitangelo's nose tilts to the right. This commonplace interaction spurs the novel's unemployed, wealthy narrator to examine himself, the way he perceives others, and the ways that others perceive him. At first he only notices small differences in how he sees himself and how others do; but his self-examination quickly becomes relentless, dizzying, leading to often darkly comic results as Vitangelo decides that he must demolish that version of himself

that others see. Pirandello said of his 1926 novel that it "deals with the disintegration of the personality. It arrives at the most extreme conclusions, the farthest consequences." Indeed, its unnerving humor and existential dissection of modern identity find counterparts in Samuel Beckett's Molloy trilogy and the works of Thomas Bernhard and Vladimir Nabokov.

The Little Virtues - Natalia Ginzburg
2017-09-12

In this collection of her finest and best-known short essays, Natalia Ginzburg explores both the mundane details and inescapable catastrophes of personal life with the grace and wit that have assured her rightful place in the pantheon of classic mid-century authors. Whether she writes of the loss of a friend, Cesare Pavese; or what is inexpugnable of World War II; or the Abruzzi, where she and her first husband lived in forced residence under Fascist rule; or the importance of silence in our society; or her vocation as a writer; or even a pair of worn-out shoes, Ginzburg brings to her reflections the wisdom of a survivor and the spare, wry, and poetically resonant style her readers have come to recognize. "A glowing light of modern Italian literature . . . Ginzburg's magic is the utter simplicity of her prose, suddenly illuminated by one word that makes a lightning streak of a plain phrase. . . . As direct and clean as if it were carved in stone, it yet speaks thoughts of the heart." — The New York Times Book Review

Defending Qualitative Research - Mario Cardano 2020-03-13

Focussing on the phases of qualitative research which precede and follow fieldwork – design, analysis, and textualization – this book offers new theoretical tools to tackle one of the most common criticisms advanced against qualitative research: its presumed lack of rigour. Rejecting the notion of “rigour” as formulated in quantitative research and based on the theory of probability, it proposes a theoretical frame that allows combining the goals of rigour and that of creativity through the reference to theory of argumentation. As such, it will appeal to scholars and students across the social sciences with interests in qualitative research methods.

Brief Interviews with Hideous Men - David Foster Wallace 2009-09-24

In this thought-provoking and playful short story collection, David Foster Wallace nudges at the boundaries of fiction with inimitable wit and seductive intelligence. Wallace's stories present a world where the bizarre and the banal are interwoven and where hideous men appear in many guises. Among the stories are 'The Depressed Person,' a dazzling and blackly humorous portrayal of a woman's mental state; 'Adult World,' which reveals a woman's agonized consideration of her confusing sexual relationship with her husband; and 'Brief Interviews with Hideous Men,' a dark, hilarious series of imagined interviews with men on the subject of their relations with women. Wallace

delights in leftfield observation, mining the absurd, the surprising, and the illuminating from every situation. This collection will enthrall DFW fans, and provides a perfect introduction for new readers.

Invisible Cities - Italo Calvino 2013-08-12

Italo Calvino's beloved, intricately crafted novel about an Emperor's travels—a brilliant journey across far-off places and distant memory.

In a garden sit the aged Kublai Khan and the young Marco Polo—Mongol emperor and Venetian traveler. Kublai Khan has sensed the end of his empire coming soon. Marco Polo diverts his host with stories of the cities he has seen in his travels around the empire: cities and memory, cities and desire, cities and designs, cities and the dead, cities and the sky, trading cities, hidden cities. As Marco Polo unspools his tales, the emperor detects these fantastic places are more than they appear.

The Monkey's Wrench - Primo Levi 2017-06-20

A chemist-turned-writer and a construction rigger in a remote factory pass the time swapping tales of their lives and voyages. Primo Levi's most light-hearted novel, *The Monkey's Wrench* is a tribute to storytelling, human ingenuity, and the importance of finding meaningful work in life. "A lot of stories have happened to me," says Fausone, the mysterious construction rigger at the center of this comic novel by Primo Levi. Far from home on a work assignment, Libertino Fausone befriends the book's narrator, a chemist based loosely off of Levi himself. Although he can't quite explain it, the chemist is immediately entranced by the wandering laborer who has traveled to every corner of the world. The two embark on an unlikely friendship, trading tales filled with curses and spies, scandal and heartbreak. With its easy-going and even whimsical tone, *The Monkey's Wrench* is a change from Primo Levi's other works. Yet its message is just as vital. The novel reminds us about the importance of connection between strangers, our endless capacity to solve even the most challenging of problems, and finding fulfillment in work. Along with Elie Wiesel and Hannah Arendt, Primo Levi is remembered as one of the most powerful and perceptive writers on the Holocaust and the Jewish experience during World War II. This is an essential book both for students and literary readers. Reading Primo Levi is a lesson in the resiliency of the human spirit.
